

FEDERATION INTERNATIONALE FELINE
FIFe

AGENDA OF THE ANNUAL GENERAL ASSEMBLY

**30+31.05.2024
9.00–18.00**

**Pannonia Tower Hotel
Parndorf
Austria**

AGENDA

1. Welcome speech of the President
2. Roll call of the Delegates
3. Election of two Scrutineers and three Supervisors for the Minutes of the GA 2024
4. Drafting of the Minutes
5. Approval of the Agenda
6. Approval of the Minutes of the General Assembly 2023 in Tavira (PT)
7. Report of the President..... *to be distributed at the meeting*
8. Report of the General Secretary *to be distributed at the meeting*
9. Report of the Treasurer *to be distributed at the meeting*
10. Reports of the two Controllers..... *to be distributed at the meeting*
11. Discussion on the reports of the Treasurer and the two Controllers
12. Discharge of responsibility:
 - a) of the Executive Board
 - b) of the Treasurer
13. Reports of the Commissions **page 4**
 - a) Breeding & Registration Commission (BRC)4
 - b) Disciplinary Commission (DC) *to be distributed at the meeting*
 - c) Health & Welfare Commission (HWC)4
 - d) Judges & Standards Commission (JSC).....5
 - e) Public Relations (PRC).....6
 - f) Show Commission (SC)7
14. Other reports..... **page 7**
 - a) Breed Council Administrator (BCA).....7
 - b) Report on cats registered in FIFe (2023) *to be distributed at the meeting*
15. Elections (*Members, who supported candidates, appear behind or below their names*)
 - a) Election of a Treasurer for a period of 3 years

Candidates in alphabetical order:

 - **Mr. Leopold van de Haterd (NL-Mundikat)** nominated by Mundikat (NL), KKÖ (AT), ÖVEK (AT), ČSCH-SCHK (CZ), SFDH (HR), FH (HU), FFM (MX), KKM (MY), Felikat (NL), CPF (PT) and FFS (SK).
 - **Mr. Jürg Keller-Friškovec (CH)** nominated by FFH (CH), 1.DEKZV e.V. (DE), FD (DK), SK (FI), Kynjakettír (IS), LFA-Bubaste (LT), NRR (NO), FAF-FR (RO), SVERAK (SE) and ZFDS (SI).
 - b) Election of a Vice-President for a period of 3 years

Candidates in alphabetical order:

 - **Mrs. Donatella Mastrangelo (IT)** nominated by FBe (BE) and Felikat (NL).
 - **Mr. Veikko Saarela (FI)** nominated by SK (FI), KKÖ (AT), ČSCH-SCHK (CZ), 1. DEKZV e.V. (DE), FD (DK), SFDH (HR), FH (HU), Kynjakettír (IS), LFA-Bubaste (LT), KKM (MY), NRR (NO), FAF-FR (RO), SVERAK (SE) and FFS (SK),
 - **Mr. Dietmar Sagurski (DE)** nominated by ÖVEK (AT) and FFM (MX).
 - g) Election of 2 Controllers for a period of 3 years

Candidates in alphabetical order:

 - **Mr. Hans Boskär (SE)** nominated by SVERAK (SE), FD (DK), Kynjakettír (IS) and NRR (NO).
 - **Mr. George Dorgiakis (GR)** nominated by FFG (GR).
 - **Mr. Timo Kanninen (NL-Felikat)** nominated by Felikat (NL), FBe (BE), 1.DEKZV e.V. (DE).
 - **Mrs. Marie-France Pohl (LU)** nominated by LCC-FFL (LU), FBe (BE), 1. DEKZV e.V. (DE), SFDH (HR), LFA-Bubaste (LT) and CPF (PT).

- h) Election of 2 Assistant Controllers for a period of 3 years**
Candidates in alphabetical order:
- **Mr. Hans Boskär (SE)** nominated by SVERAK (SE), Kynjakettír (IS) and NRR (NO).
 - **Mr. George Dorgiakis (GR)** nominated by FFG (GR), 1.DEKZV e.V. (DE), LFA-Bubaste (LT), KKM (MY) and CPF (PT).
 - **Mr. Timo Kannianen (NL)** nominated by Felikat (NL), FBe (BE), KKM (MY) and CPF (PT).
 - **Mrs. Marie-France Pohl (LU)** nominated by LCC-FFL (LU) and FBe (BE).
- 16. Financial matters – Financial Report**
The full report will be sent to the Members separately by email.
- a)** Determination of the fees - 01.01.2025 - 31.12.2025
b) Determination of the monthly allowance General Secretary - 01.01.2025 - 31.12.2025
- 17. Presentation of the budget for the year 2025, discussion and vote**
- 18. Applications for patronage membership (qualified - ¾ majority)**
No applications for patronage membership
- 19. Reports on Members under patronage (no voting)**
 Bulgaria (BG) – Federation of Felinology Bulgaria (FFBg)
 Mentor: FAF-FR - Felis Romania RO) **page 8**
- 20. Applications for full membership (qualified - ¾ majority)**
No applications submitted
- 21. Proposals page 9**
- a) Proposals regarding the Statutes (qualified - ¾ majority) page 9**
- NL (Felikat) proposal 1: New article § 4.11 – Membership requirements9
 - NL (Mundikat) proposal 1: New chapter – Ombudsman (incl.new chapter in General Rules) 10
- b) Proposals regarding the General Rules..... page 11**
- JSC proposal 1: Annex 1 Judges Allowance amounts 11
 - The Board proposal 1: New article § 2.8 Show Statistics..... 11
 - The Board proposal 2: Annex 1 Judges Allowance per day..... 11

23. Miscellaneous

24. Close of the General Assembly

By order of the Board,

Annette Sjödin - President

Eric Reijers - General Secretary

REPORTS OF THE COMMISSIONS

Report of the Breeding & Registration Commission

BRC

The members of the Breeding & Registration Commission (BRC) are Cecilia Wennergren (SE), Maria Myrland (NO) (Secretary) and Sarah Johnson (UK), (Chairman).

Since our last report, we held no physical meetings except at the last AGA, all matters having been dealt with via e-mail and other electronic means. We dealt with requests from the Board for recommendations regarding new colours, problems understanding the BRR in connection with the registration of cats, etc.

The commission has dealt with these cases since last GA:

- FB (UK) and CSCH (CZ) on a request for a way to register Corin cats.
- Mundikat (NL) on the question of using Silver JBT for breeding.
- FFH (CH) regarding the registration of offspring of MCO from a dominant blue eyed parent.
- FFH (CH) requesting an EMS code for LH Bengals.
- 1.DEKZV e.V (DE) on a request to register a Charcoal OSH.
- Question from the BOM BC regarding the use of AMS-non in the breeding programme

We also present registration statistics. Having now gathered this information for 2019, 2020, 2022 and 2023 it makes for interesting information.

I would like to thank the Board for their cooperation and support, and especially Charles Spijker, for helping with translations, formulating proposals, etc.

Finally, I would like to thank my fellow commissions members for their work and support in the commission.

On behalf of the Breeding & Registration Commission

Sarah Johnson, Devon, UK, 25.03.2024.

Report of the Health & Welfare Commission

HWC

Members: Mrs. Sara Moroni (Chairperson), Mrs. Petra Černá (secretary), Mrs. Jurgita Gustaitiene

Dear Delegates and Members,

As we gather to review the achievements and challenges of the past year, first and foremost let me express my deepest gratitude to Jurgita Gustaitiene and Petra Černá for their dedication and hard work. Despite facing numerous challenges, the commitment to our Commission has been unwavering, and I am immensely grateful. I also want to extend my appreciation to the Board for their support during these times. Last year has been a testament to the resilience and adaptability of our Federation, but despite facing unprecedented obstacles for some of our national Members, together we have emerged stronger as a community. Throughout the year, the HWC remained deeply engaged through a series of email correspondences and online meetings, ensuring ongoing communication and cooperation despite physical distance, with members of HWC located in two different continents and three different time zones. Digital interactions enabled us to sustain our momentum and drive meaningful progress forward, we didn't have any physical meeting.

Immediately after the 2023 GA, we contacted Members and BCs, after being granted permission from the Board to have direct contact. We discussed hot topics of some breeds, with our emphasis leaning towards prioritizing health concerns. We analysed results of the survey sent out to Members in 2022 and focused on specific requests from their side. We developed a project for a future database and test centre for HD, with input from some of the BCs, and contacted world-leading reading centres worldwide. We contacted professors at different Universities regarding the concern of the RAG BC for HCM.

Very soon, we were contacted by some Members expressing their urgency to face a "ban" of some breeds at a national level, with others under attack by political "animal welfare" organizations or green parties. Due to high pressure from animal rights associations, we decided to temporarily halt our ongoing activities on future tests or breeding strategies and redirect our focus and energy within the legal framework of EU proposals. Understanding the importance of staying on top of changes, we shifted gears to prioritize keeping on top of these developments. This allowed us to stay responsive to the shifting landscape within the European Union and ensure that our European Members continued to align with regulatory requirements at a local level.

We want to make it unequivocally clear: we are not idly waiting but taking proactive steps. We are actively engaged in discussions with leading scientists in the field to fortify our position with concrete scientific

evidence. We are in contact and have had meetings with Dr. Leslie Lyons with the aim of countering and debunking the unfounded allegations made by animal rights associations, ensuring that our stance is firmly grounded in scientific rigor.

We established contact with EU Parliament member Mrs. Sirpa Pietikainen, who was Suomen Kissaliitto candidate for HWC, and thanks to her office we will have first-hand information from an insider point of view. Moreover, we participated in the “Call to Care for Animal Welfare” event in Brussels upon invitation from Felis Belgica, and had direct contact with Dr. Andrea Gavinelli, EU Office General Animal Welfare Unit in the Health and Food Safety Directorate General of the European Commission.

Through our strategic engagement and constructive dialogues with key figures, we have fostered meaningful cooperation that is now bearing fruit. The tangible outcome is reflected in the upcoming Seminar agenda, where our priorities and concerns have been incorporated prominently, resulting in a lecture to all delegates from Dr. Kornilia Zafeiropoulou, who will enlighten us all on the main topics of the much-discussed EU proposals. This cooperation underlines the power of dialogue and partnership in driving positive change, and we look forward to furthering our shared objectives through continued engagement and cooperation.

Last but not least, we're grateful to the other Commissions for the chance to hold joint meetings and share insights. These group sessions enhanced our understanding of the organization. From such joint meetings, recently a new working group emerged, gathering some candidates chosen from Members to work alongside the HWC in order to harmonize FIFe position on a national level, when it comes to governmental issues.

We refrained from presenting any new proposals to our rules at this GA. This pause signifies a choice within our scope of activity, allowing us the necessary time for reflection and ensuring that our future proposals are thoroughly founded and robust, and most of all consistent with the future EU Regulations.

It seems our Members have a similar stance, as we haven't received any communication regarding proposals on health and welfare from their side. Nonetheless, we remain ready and eager to collaborate.

Rest assured, our commitment remains resolute, and we are steadfast in our resolve to advocate effectively for the welfare of cats in the upcoming year.

Thank you for your dedication and support.

On behalf of the Health & Welfare Commission, Sara Moroni, Chairman, Aprilia, 30th March 2024

Report of the Judges & Standards Commission

JSC

The Judges and Standards Commission (JSC) is composed of 6 members: Mrs Donatella Mastrangelo (Chairman), Mr Steven L. Jones (Secretary), Mr. Francesco Cinque, Mrs Satu Hämäläinen, Mrs Yulia Skabovska and Mr Mirek Skotarczyk.

This past year the Commission could work at full speed! As always, we performed our duties exclusively by email and videoconference. The activity online has been particularly intense, especially last Autumn 2023 with compulsory seminars, plus other online meetings with Breed Councils (BC) and other Commissions.

- Since the last GA, we had 3 video meetings in 2023 and 4 in 2024
- The Judges Rules didn't undertake any change. So, we have cooperated with the Vice-Secretary for the implementation of few changes in breed standards, due to the accepted proposals of GA 2023
- After GA 2023, we prepared new Exam Sets and sent them to the General Secretary who could use them till the end of the year, for all categories, and BG Exams.
- All Exam Questionnaires 2024 in English (Final and Preliminary) were made available in October 2023. And Exam sets for 2024 were ready at the beginning of 2024. A Reactivation Exam has also been prepared and later checked with positive result from the candidate
- Soon after the GA 2023, a Judges Seminar has been organized in Italy, in June, and we thank ANFI for the opportunity given to FIFe Students and Judges that could not attend the GA Seminar.
- Another Judges Seminar is planned for next July. And for this we thank FPL that offered to organize it.
- In October 2023 we organized a Compulsory seminar, again online. There were 14 Students and 6 Judges participating. We experienced a new system for this kind of seminar, splitting it in 3 sessions, so that the huge amount of information would be more diluted, and more time could be available for open discussion with Students. This new arrangement has been very positively received by the participants.
- We have been working to find a solution to the recent scientific findings about the Corin mutation which affects several breeds. The cooperation with the Board and BRC resulted in the proposals we present.
- We gave our opinions to the Board on the inactivity of dormant judges and to Mundikat on possible changes to the JBS to include the silver tabby and the smoke varieties.
- We promoted and participated in 3 FIFe Commissions meetings to discuss common issues and have a common approach towards various subject that may be relevant for FIFe and the Cat Fancy. It was

extremely positive to have such meetings and a broader cooperation among commission with the result of some of the proposals being “joint” proposals this year.

- The comments received last year during the GA seminar and those collected during the years, made us start a project, in cooperation with the Breed Councils, trying to eliminate all “unnecessary faults” from the standards and giving the BC the chance to also make standards changes if considered necessary. We organized online meetings with the BC Secretaries, and the work progressed smoothly. This is just the beginning of a long journey, and more updates will for sure come in the future. The BCs have been extremely helpful, and the cooperation was very effective. We all appreciated working in direct contact and hope for more shared projects.
- We gave our contribution to the breed descriptions now published on the new FIFe website.
- The JSC decided to have periodical informal video meetings with Student Judges, about various subjects related to the Judges training activity. This is a way to make Students feel closer to each other and to build a solid FIFe judges’ community, in addition to the great importance of sharing information and experiences without any barrier or prejudice. Our intention is to reinforce the support already provided (by Members and Mentors) and stimulate their interactions for a more positive general experience. The first attempt was successful and positively received, so we will plan more meetings in the months to come.
- We arranged and prepared the Judges seminar that will take place this coming Saturday mostly focused on the Corin mutation that affects a certain number of breeds in FIFe, and the new EU proposed Regulation on Cats & Dogs welfare.

My personal and sincere thanks go to my fellow Commission Members that have been working really hard this year, and in a very professional way. Thanks also to the Board, the General Secretary and the Vice-Secretary for the excellent cooperation, good suggestions and support received.

I also want to thank the other Commissions members for the important chance to have a more direct cooperation and open communication. Something we certainly need and that for sure will help us all to grow up stronger.

On behalf of the FIFe JSC, Donatella Mastrangelo - Chairman

	<h2>Report of the Public Relations Commission</h2>	PRC
---	--	------------

The members of the Public Relations Commission (PRC) are Anna Wijbrands (NL), (Chairman) *Adéla Justová* (CZ), and Anžela Fomičeva (Secretary).

We had no physical meetings; all matters were dealt by e-mail and other electronic means. We dealt with requests from the Board for recommendations and help regarding the FIFe 75 year jubilee and how to create interaction with our audience about this milestone on social media.

Since our election as PRC members, we also stumbled on some issues regarding where responsibility lies and who is in charge of certain platforms, the access to these platforms and how we can best work together to get the best and most valuable content.

At this moment, the duties within our commission are not being fulfilled up to the best we could fulfil them. Anžela Fomičeva has most experience in advising cat clubs about possibilities of sponsorships, how to use Facebook to the best its ability to reach maximum amount of exposure, sponsors and exhibitors.

The duties, which Adéla Justová can fulfil and has fulfilled tremendously well over the past year was to generate more data about where the different clubs in FIFe stand regarding social media and generate and read surveys accompanied with follow up action plans specified to the needs per country. Her capacities go much further than this as she can create also more content for FIFe but we were not allowed to do so yet. Anna Wijbrands’ capabilities lie most in the field of visual content, video’s, Instagram content and branding.

The Board and the PRC had some good discussions about FIFe being a brand and where we want to stand for in the world. We hope we will go further into this the coming year and build towards a preset framework what and how we are going to use social media more effectively, a content strategy that will fit FIFe.

At the GA 2024 we will report our findings that came out of our survey last year regarding how the different FIFe members use social media and online platforms currently.

Our further findings are as follows:

- FIFe Instagram exists. PRC has no access. The board is in charge of the Instagram and most commonly votes on its content.
- FIFe’s official Facebook page exists, only the board members have access.
- Regarding FIFe’s new website that was launched earlier this year. We offered help but it was not necessary as the website was in its final face when we were having the meeting with the board.

Goals for 2024-2025:

- Launch a website where all FIFe members can find scientific content and content of Universities globally about cat breeds, their health and their behaviour to use for promotion or defence against unfounded opinions.
- Work together more closely with the FIFe board to create a content strategy for FIFe.
- Continue cooperation with the other commissions to benefit FIFe's position and members globally.
- There needs to be a financial PR budget of some sort to attain the best result for FIFe.
- We don't need German and French as official FIFe languages. English will be sufficient.
- Get clearly defined by the board and GA, what role and duties they want to give the PRC.
- Rethink how FIFe money is spent and how it will benefit the future most effectively

On behalf of the Public Relations Commission, Anna Wijbrands, Chairman

	<h2>Report of the Show Commission</h2>	<p>SC</p>
---	--	-----------

During the period from May 2023 until March 2024, the Show Commission has the following members: Mr. João Noronha (PT) – chairman, Mrs. Thea Friškovec-Keller (CH) – secretary, Mrs. Gøran Vinje (NO), Mrs. Riikka Turpeinen (FI) and Mr. Marcel Frank (NL).

During the past months the work in the Show Commission was performed timely, with pleasure and enthusiasm, based on an excellent teamwork and contact with the Board.

During this period, the Show Commission had two web-meetings: in September 2023 and March 2024. During this period also, whenever necessary, emails were exchanged to respond and follow up on any type of question. The minutes of the meetings and all recommendations of the SC were sent to the General Secretary.

We discussed and dealt with several matters concerning the Show Rules for which a recommendation was asked by the Board:

- Request for recommendation from Board regarding qualifying cats for World- and Winners Shows,
- Request to answer questions regarding organizing shows outside Belgium, FBe (BE),
- Request for interpretation about transition period between the old ages in classes 12/11, 9/10 and the new ones FPL(PL) and SVERAK (SE)
- Request for an exception regarding qualification for the World Show 2023 for members of UFU (UA),
- Request to organize a show without veterinary control, SK (FI).

As in the years before the Vice-secretary assisted the General Secretary in producing the 2024 edition of the Show Rules in English, German and French languages. After checking the final versions, the Show Commission thanks him for the work and cooperation.

This year the Show Commission has prepared proposals regarding the Show Rules to GA, which draw our attention and we felt matters need to be handled.

We would like to Mr. Jürg Keller for translations and all the members of the Show Commission for the excellent teamwork and prompt cooperation during this year.

On behalf of the FIFe Show Commission,

João Noronha Chairman

Thea Friškovec Secretary

OTHER REPORTS

	<h2>Report of the Breed Council Administrator</h2>	<p>BCA</p>
---	--	------------

Dear Members,

2023 was a calm year for the Breed Councils (BC). The difficulty remains in getting the renewals done, but 95% was done before mid of February.

In December 2023 we had 31 BCs, consisting of 28 members and 310 individual members. At the time of writing, we have 31 BCs consisting of 31 members and 298 individual members.

Also, the BSH BC was busy with gathering information and knowledge about "copper". There was a joint

meeting of the JSC/BRC and HWC with the BC secretary BSH/BLH to discuss and share opinions about this Corin gene.

In 2023, there was an online meeting with most of the BC secretaries or delegates and the JSC. The BC participants received this meeting was very positively. It was about the Standards and talking how to remove matters, which are logical and the opposite of what already is mentioned in the Standard. This work was done in cooperation with the BCs and the JSC. The goal was to finish this task for the majority of breeds and send these proposals to the GA.

Some BCs show a growth, PER/EXO, DRX gain slowly new members! I would like to point out that we do not have BCs for Ocicat, LaPerm, Turkish Angora, Sokoke and Japanese Bobtail. Perhaps we can encourage members to start one!

We also could encourage members who have the following breeds to join the BCs especially some extra attention for PER/EXO, DSP, MAU, SIN, CHA, SRL/SRS, SPH, MAN/CYM, BUR. We are looking for a BC secretary for the BC TUV after resignation.

Let us motivate our breeders to work together for their breed. As in the current atmosphere where breeds are under scrutiny by animal welfare activists and governments, we need members to show that we breed for health and have this as our priority.

I would like to urge all Members to encourage their breeders to join the BCs so that they have an opportunity to share their knowledge and expertise and have their voice heard where it matters most.

Last but not least, I would like to ask the FIFe Members to be of great assistance when the BC memberships of their members needs to be renewed. This way you will really make a difference. Please respond to the email, send out those invoices to your members and let them know and respond to you as soon as possible. I would kindly like to remember our Members that the BCs renewals must be finished by 31st of January of each year. Let us try this for 2025!

Nathalie Smits, Breed Council Administrator

REPORT ON MEMBERS UNDER PATRONAGE (no voting)

	Federation of Felinology Bulgaria Mentor: FAF-Felis Romania (RO)	(BG) FBBg
---	--	--------------

As mentor of Federation of Felinology Bulgaria, Federatia Asociatiilor Feline Felis Romania has the pleasure to inform you of the progress done by the Federation in Bulgaria.

The Bulgarian Federation continues to keep their LO Book in order, 5 new catteries have been registered on top the old ones, the federation keeps their presence on the most important social media platforms in order to create awareness regarding Felinology and FIFe.

The Bulgarian Federation organized 2 international FIFe shows in May and in August, their show in August was held in Plovdiv with an average of 120 cats and quite a good number of sponsors which will ensure financial stability to the club. They also organized an event for the breeders to socialize and talk with visitors about cats and Felinology. They have already acquired their own show cages. Overall, we are very happy with their work and improvement, and we are confident for the future of FIFe in Bulgaria

Respectfully,
President Felis Romania
Adrian-Alexandru Dragota

Proposals regarding the Statutes (qualified - 3/4 majority)

	Nederlandse Vereniging van Fokkers & Liefhebbers van Katten "Felikat"	(NL) FE
---	--	------------

NL	Felikat	Proposal 1	Statutes	§ 4.11
Membership requirements				(new article)

Members who have not complied with one or more of the following requirements shall forfeit their rights as laid down in Statutes articles 4.1, 4.5 and in the second sentence of article 4.7:

- a) *when they have not fulfilled their financial obligations as laid down in Statutes article 9.2.*
- b) *when in the preceding calendar year:*
 - 1. *less than 8 applications for new cattery names were approved*
 - 2. *less than 100 pedigrees for cats belonging to recognised breeds, bred by their own individual members, were issued by the Member and registered in their Pedigree Book*
 - 3. *less than 2 International shows were organised and took place.*
- c) *when lacking willingness to co-operate with or to include clubs which share the objectives promoted by FIFe.*

The Executive Board may, upon request, grant exceptions to Members who have justifiable difficulties in meeting the above requirements.

Motivation:

FIFe Members are the most important representatives of our Federation and have great responsibilities toward the values and principles promoted by the Federation. In that context, it is unexplainable that Patronage members have to fulfil certain requirements (see General Rules article 2.3) in order to obtain full membership, but as soon as they obtain this status, almost no obligations are left to meet anymore. We believe the time has come FIFe Members should be held accountable for the way they promote our Federation within their own country. A continuing full membership of FIFe, entailing all rights as laid down in our rules, should not be taken for granted, but earned.

	<h1>Mundikat</h1>	<p>(NL) Mundikat</p>
---	-------------------	--------------------------

NL	Mundikat	Proposal 1	Statutes / General Rules
Ombudsman			(new chapter)

Mundikat proposes that FIFe appoints an Ombudsman.

The FIFe Ombudsman will deal with complaints about members of FIFe.

The FIFe Ombudsman conducts inquiries into cases of maladministration by members of FIFe or on the basis of complaints from members of a FIFe member.

All FIFe members, clubs and Federations fall under the jurisdiction of the FIFe Ombudsman. All parties must cooperate with the investigation. The FIFe Ombudsman is a second line provision. This means that the complaint or problems must have gone through all available procedures. Only when the proper procedures do not result in a solution the FIFe Ombudsman can deal with the complaint. If the FIFe Ombudsman does not obtain the assistance requested, the Executive Board is to be informed, which takes appropriate action.

The Ombudsman is elected by the GA for the duration of 6 (six) years. He can only be re-appointed once, for a second term of 6 (six) years. The Ombudsman receives an annual remuneration, set by the FIFe GA.

The FIFe Ombudsman must:

- Be completely independent and impartial in the exercise of their duties.
- Refrain from any act incompatible with his duties.
- Not fulfil any function within a FIFe Federation or FIFe Club or any arbitration function in another organization that is Cat Fancy related.
- Not engage in any other function deemed undesirable to perform his duties as an impartial party.

The General Assembly may discharge the FIFe Ombudsman if:

- He no longer fulfils the conditions required to do his duties or is guilty of serious misconduct.
- When he has reached the age of 70 years or at own request.
- When he becomes incapable, e.g. because of bad health, to perform his duties
- When he accepts a function that is in conflict or incompatible with his or her duties
- When he no longer resides in a country where a FIFe member is residing
- When the GA concludes that his actions or the lack thereof are detrimental to the trust bestowed the FIFe Ombudsman.

The FIFe Board may suspend the FIFe Ombudsman for a period of 3 months when there are strong convictions, facts or circumstances that could lead to discharge by the GA. The suspension automatically stops after three months and may be prolonged for a period of three months at a time. The GA can decide not to grant the FIFe Ombudsman a remuneration for the period he was suspended.

The FIFe Ombudsman has no authority to investigate when there is a possibility for an appeal regarding the matter or when the matter can be handed to the Disciplinary Commission of FIFe.

If this proposal is accepted, a chapter for the Ombudsman needs to be inserted in the General Rules:

Complaints can only be dealt with by the FIFe Ombudsman when it complies with the following conditions:

- The request and the documentation is dated and signed and submitted in the English language.
- The complaint is regarding an organization within FIFe.
- A complaint has been made with the concerning organization first, but without any proven result. Unless it is not reasonable to expect this in the matter at hand.
- The handling of this complaint took place no longer than one year ago and there is no possibility for an objection or an appeal.
- The complaint does not consider the content of any rule or regulation (but it may consider the application of such a rule or regulation) or the ruling of any Disciplinary Body.
- Comprises a detailed description of the behaviour, the person(s) who conducted this behaviour and the name of the injured party if not the requestor
- The causes for the request are clearly stated and is accompanied with documentation regarding the procedure of the complaint, the results of the investigation by the organisation and the decision of the organisation and the consequences based on this conclusion.

Should the requirements of this article not be met, the FIFe Ombudsman may grant the requester time to enable him to meet all requirements. The FIFe Ombudsman sets this period.

The FIFe Ombudsman is not obliged to start an investigation when:

- The request does not meet the requirements specified.
- The request is unfounded or has no significant interest or the behaviour of the organisation is not very significant
- The request concerns a matter for which an appeal or objection could be made or for which another authority delivered a ruling
- The request concerns an action or behaviour that is or was dealt with by the FIFe Ombudsman, unless there are new facts that could result in a different decision.

Organizations do not need to pay a case fee for the first complaint against them that is dealt with by the FIFe Ombudsman in each financial year. From the second complaint onwards, organizations must pay a fee when the Ombudsman handles a complaint against them. If a case needs to be investigated it becomes a chargeable case, regardless of outcome. This fee is set by the GA and included in Annex 1 of the General Rules.

Proposals regarding the General Rules

	<h3 style="margin: 0;">Judges & Standards Commission</h3>	<p>JSC</p>
---	---	------------

FIFe	JSC	Proposal 1	General Rules	Annex 1
Minimum amounts net Judges Allowance				

The JSC proposes to raise the minimum allowance for Judges as follows:

Per show.....	100.00 150.00
Except:	
- two-day show (separated by categories), per day the judge officiates	100.00 150.00
- two-day show (not separated by categories).....	160.00 200.00

Motivation

The Judges Allowance has been the same for approximately 15 years. During the same period, accumulated inflation in Europe is over 50%. It seems reasonable to increase the judge's allowance to match this increase.

	<h3 style="margin: 0;">Board</h3>	
---	-----------------------------------	--

FIFe	Board	Proposal 1	General Rules	§ 2.8
Show statistics				(new article)

FIFe Members must submit statistics providing the number of cats appearing in the show catalogues of each of their national and international shows. The information shall be divided by breed. These statistics reflecting the previous year, must be sent to the General Secretary by the end of January. The Show Commission shall forward a report to the General Assembly regarding cats shown within FIFe and its Members based on the statistics received.

Motivation

General Rules § 2.7 already covers breeding and registration statistics. We believe similar statistics should be made available with regard to our shows.

FIFe	Board	Proposal 2	General Rules	Annex 1
Minimum net Judges Allowance per day				

Per show day the judge officiates at the show	100.00
Except:	
two-day show (separated by categories), per day the judge officiates	100.00
- per two-day show (not separated by categories).....	160.00

Motivation

The minimum net Judge Allowance should not be depending on the show type (→ Show Rules § 1.11) and the number of certificates that can be obtained on one day or during a weekend.

Proposals regarding the Standards, General Part & the EMS System

	<p>LUX-CAT-CLUB Fédération Féline Luxembourgeoise</p>	<p>(LU) LCC-FFL</p>
---	---	-------------------------

LU	LCC-FFL	Proposal 1	Standards, General Part & EMS System	SPH
Whiskers				

Faults - Head

Addition: **complete absence/lack of whiskers**

Remark

In more and more countries, you hear murmurings from authorities about breeding animals without fur and without vibrissae/whiskers. We should take precautions and better explain our animals in the rules.

	<p>Nederlandse Vereniging van Fokkers & Liefhebbers van Katten "Felikat"</p>	<p>(NL) FE</p>
---	---	--------------------

NL	Felikat	Proposal 2	Standards, General Part & EMS System	BLH/BSH
Shaded and shell				

Felikat proposes to re-instate the EMS code 12 for shell in the following BLH/BSH varieties:

COLOUR / FARBE / COULEUR	EMS CODE	Rem./Anm
SILVER TIPPED SHADED/SHELL	BLH/BSH n/a/b/c/o/p s 11/ 12	D, G, H
	BLH/BSH d/e/f/g/h/j/q/r s 11/ 12	D, G, H
GOLDEN TIPPED SHADED/SHELL	BLH/BSH n/a y 11/ 12	D, G, H

Motivation

For several years, breeders of shell varieties in British feel being robbed from “their” EMS code 12, because this code cannot be assigned to their beautiful chinchilla cats which meet the colour description of shell. We understand them and fully support the re-instatement of EMS code 12 in the above BLH/BSH varieties.

	<p>Norske Rasekattklubbers Riksforbund</p>	<p>(NO) NRR</p>
---	---	---------------------

NO	NRR	Proposal 1	Standards, General Part & EMS System	NEM
Change to 6 colour groups				

NRR proposes to increase the number of colour groups for the Neva Masquerade to six.

The revised colour groups will follow the grouping of other breeds in Cat 2 (MCO, NFO, SIB) with the exception that silver will not be separated out into its own groups:

NEM table of recognised colour varieties → Annex to the Agenda, page 37

Motivation

The Neva Masquerade was recognised in FIFe in 2011 and in the subsequent years has become increasingly popular. From the latest publicly available breeding statistics (2022) the Neva Masquerade is the 10th most popular of all recognised breeds within FIFe. NRR believes it is now appropriate to implement a final colour group division for the breed.

Judges & Standards Commission

JSC

FIFe	JSC	Proposal 2	Standards, General Part & EMS System
CORIN			(new)

Introduction

This proposal comes as a result of developments in identification of CORIN colour modifiers in a number of recognised breeds within FIFe and proposes a modification to the FIFe EMS system to register these modifiers. This proposal comes after a number of requests from FIFe members who have had problems in registering cats from other cat organisations where these colour modifiers are already recognised.

There is no doubt that FIFe is rather late in modifying/extending the FIFe EMS System to allocate codes for these colours modifiers. Other organisations have had EMS codes in place for a number of years. However, one advantage of this is that FIFe is able to take advantage of a wider range of knowledge and hopefully allocate EMS codes that will remain viable in the future.

What is CORIN?

It is not easy to explain in layman's language what CORIN is and how it is involved in the coat colour of cats. In agouti (banded) cat hair there are two types of colour granules, phaeomelanin (red) and eumelanin (black). In the hair, MSH (melanocytes stimulating hormone) causes eumelanin production causing the hair to be black. In the agouti (banded) hair, ASIP (agouti stimulating protein) causes the melanocytes to switch to producing phaeomelanin. CORIN (a protein-coding gene) breaks down ASIP allowing MSH to start producing eumelanin black pigment again. This cycle results in the bands on the hair.

Mutated CORIN takes longer to break down ASIP, which causes phaeomelanin red pigment to be produced for longer and misshapen black pigment during the switchover. This has the general effect of making the coat colour look warmer and brighter.

Proposal

This proposal considers CORIN mutations seen in SIB/NEM, BLH/BSH and KBL/KBS and is in two parts:

1. Technicalities regarding the acceptance of EMS code and recognition.
2. The implementation of CORIN:
 - a. Allocation of EMS Code "u"
 - b. Updating of the Standards of the affected breeds – table of recognised colour varieties
 - c. Updating of the Standards, General Part – colour descriptions.

1. Technicalities regarding the acceptance of EMS code and recognition

The FIFe JSC does not see this as a new colour variety recognition but rather a colour re-registration as a result of advances in genetic testing for colour. Many cats with these CORIN modifiers have been competing very successfully in FIFe shows as golden and have already achieved the highest FIFe titles including numerous BIS, JW, SW etc.

Therefore, the FIFe JSC does not see a full recognition process as appropriate for CORIN modifiers and requests an exemption from FIFe Breeding and Registration Rules Article 11 – Recognition of new varieties.

2. The implementation of CORIN

2a. Allocation of EMS Code "u"

The FIFe JSC proposes to use the EMS Code 'u' for the modifier and it shall be given the generic name "Corin modifier". This modifier will only be available for use with agouti cats and it will not be available for use with red cats as it only affects eumelanin (black pigment) production into the cat hair.

Remarks

1. Corin modifier is meant as a generic EMS code for colours that have already been given colour names by breeders within FIFe and in other organisations (copper, akita, sunshine etc). These names will be included in the individual breed standards.
2. The EMS system has always been a system based on phenotype. However, there is certain genetic information that can be important for breeding. It is therefore proposed that the FIFe Breeding and Registration Commission develop an additional coding system whereby the various Corin mutations can be added to the pedigree (not as part of the EMS Code itself).
3. The only method described in the FIFe Rules for changing the EMS Code of a cat is to enter it into Class 13C. Other methods of changing the colour by genetic testing proof need to be evaluated.

2b. Updating of the Standards of the affected breeds – table of recognised colour varieties

SIB → **Annex to the Agenda, page 38**

NEM → **Annex to the Agenda, page 44**

BLH/BSH → **Annex to the Agenda, page 48**

KBL/KBS → **Annex to the Agenda, page 51**

2c. Updating of the Standards, General Part – colour descriptions

→ **Annex to the Agenda, page 54**

FIFe	JSC	Proposal 3	Standards, General Part & EMS System
Elimination of faults in various Standards			

The JSC proposes to eliminate all generic faults from the Standards of the following Breeds:

CAT 1 – RAG

CAT 2 – ACL/S, MCO, NFO, SIB/NEM

CAT 3 – BEN, BML, BUR, EUR, KBL/S, MAU

CAT 4 – SIA, OSH, OLH, BAL, SPH, RUS

Prelim. – BOM

The **NFO, SIB, NEM, SIA/OSH/OLH/BAL and BML** BCs agreed to delete all unnecessary faults without making further changes to their standards.

For the other breeds mentioned above, the next proposals have been prepared, thanks to the permission granted by the Board, in accordance with § 6.4 of the General Rules, to exceed the number of proposals that the Commission can present.

Motivation

The JSC has been asked, for a few years, to delete the faults that lead to no consequences (no certificate or disqualification). Some of these faults are also the exact opposite of what is written in the standard (i.e. standard: short nose; fault: long nose) and give no additional or useful information to both judge and breeder. To avoid misunderstanding and different interpretation of these faults from both judges and breeders, the JSC decided to work in cooperation with the Breed Councils. The cooperation has been excellent, we worked side by side for a few months to be able to present standard changes' proposals for a first group of breeds. We hope the GA will support these proposals, which are the result of hard work between the JSC and the Breed Councils.

FIFe	JSC/ BC RAG	Proposal 3.1	Standards, General Part & EMS System	RAG
Standard RAG				

The JSC, on behalf of the RAG Breed Council proposes the following changes to the RAG Breed Standard:

- to cancel all the **generic faults** and the **remarks**
- the changes as indicated in the **Annex to the agenda, page 60**.

Remark

If this proposal is accepted, the description of mitted in the General Part shall be updated accordingly.

FIFe	JSC/ BC ACL / ACS	Proposal 3.2	Standards, General Part & EMS System	ACL/ ACS
Standard ACL/ACS				

The JSC, on behalf of the ACL/ACS BC proposes the following changes to the ACL/ACS Breed Standard:

- to cancel all the **generic faults**
- the changes as indicated in the **Annex to the agenda, page 62**.

FIFe	JSC/ BC MCO	Proposal 3.3	Standards, General Part & EMS System	MCO
Standard MCO				

The JSC, on behalf of the MCO Breed Council proposes the following changes to the MCO Breed Standard:

- to cancel all the **generic faults**, the **remarks** and the **condition**
- the changes as indicated in the **Annex to the agenda, page 62**.

FIFe	JSC/ BC BEN	Proposal 3.4	Standards, General Part & EMS System	BEN
Standard BEN				

The JSC, on behalf of the BEN Breed Council proposes the following changes to the BEN Breed Standard:

- to cancel all the **generic faults** and the **disqualification faults**
- the changes as indicated in the **Annex to the agenda, page 64**.

FIFe	JSC/ BC BUR	Proposal 3.5	Standards, General Part & EMS System	BUR
Standard BUR				

The JSC, on behalf of the BUR Breed Council proposes the following changes to the BUR Breed Standard:

- to cancel all the **generic faults**
- the changes as indicated in the **Annex to the agenda, page 66**.

FIFe	JSC/ BC EUR	Proposal 3.6	Standards, General Part & EMS System	EUR
Standard EUR				

The JSC, on behalf of the EUR Breed Council proposes the following changes to the EUR Breed Standard:

- to cancel all the **generic faults**
- the changes as indicated in the **Annex to the agenda, page 66**.

FIFe	JSC/ BC KBL/KBS	Proposal 3.7	Standards, General Part & EMS System	KBL/KBS
Standard KBL/KBS				

The JSC, on behalf of the KBL/KBS BC proposes the following changes to the KBL/KBS Breed Standard:

- to cancel all the **generic faults**
- the changes as indicated in the **Annex to the agenda, page 66**.

FIFe	JSC/ BC MAU	Proposal 3.8	Standards, General Part & EMS System	MAU
Standard MAU				

The JSC, on behalf of the MAU Breed Council proposes the following changes to the MAU Breed Standard:

- to cancel all the **generic faults**
- the changes as indicated in the **Annex to the agenda, page 67**.

FIFe	JSC/ BC RUS	Proposal 3.9	Standards, General Part & EMS System	RUS
Standard RUS				

The JSC, on behalf of the RUS Breed Council proposes the following changes to the RUS Breed Standard:

- to cancel all the **generic faults**
- the changes as indicated in the **Annex to the agenda, page 67**.

FIFe	JSC/ BC SPH	Proposal 3.10	Standards, General Part & EMS System	SPH
Standard SPH				

The JSC, on behalf of the SPH Breed Council proposes the following changes to the SPH Breed Standard:

- to cancel all the **generic faults** and the **remarks**
- the changes as indicated in the **Annex to the agenda, page 68**.

FIFe	JSC/ BC BOM	Proposal 3.11	Standards, General Part & EMS System	BOM
Standard BOM				

The JSC, on behalf of the BOM Breed Council proposes the following changes to the BOM Breed Standard:

- to cancel all the **generic faults**
- the changes as indicated in the **Annex to the agenda, page 69**.

Proposals regarding the Breeding & Registration Rules

	<h1>Felis Belgica</h1>	(BE) FBE
---	------------------------	-------------

BE	FBE	Proposal 1	Breeding & Registration Rules	§ 5.2.1
Changes of a cattery name				

A cattery name once issued can be changed only ~~for a very good reason~~ **once, upon simple request of the owner.**

Motivation

The current rule asks for a very good reason, which may be confidential for the cattery name owner, and it may not be OK for the people concerned to share that reason. Situations may change over time (relationships, family, professional status, etc.) and we feel our rules must reflect this flexibility. We feel that, once registered, a cattery name is the property of the individual member of a FIFe member, who should be entitled to request a change once, when he or she considers this necessary for personal, professional, or other reasons. Obviously, a change of name would be considered a new cattery registration, so the cattery registration fee would apply once again.

	<h1>Fédération Féline Helvétique</h1>	(CH) FFH
--	---------------------------------------	-------------

CH	FFH	Proposal 1	Breeding & Registration Rules	§ 3.6
Harmonising breed restrictions – Table of faults in Show Rules				

Harmonisation of article 3.6 in the FIFe Breeding & Registration Rules with the table - Disqualifying and general faults of the FIFe Show Rules.

Article 3.6 in the FIFe Breeding & Registration Rules states that cats without whiskers are not allowed for breeding. In the FIFe Show Rules this criterion is missing in the table - Disqualifying and General Faults. We request that the responsible Commissions (BRC and SC) adapt the article, respectively the table in the respective regulations and submit it for approval to the FIFe GA 2025.

Motivation

The two regulations, the FIFe Breeding & Registration Rules and the FIFe Show Rules are contradictory regarding missing whiskers. On the one hand it is not allowed to breed with such animals and on the other hand cats without whiskers may be awarded at shows up to the highest level. This contradiction is totally incomprehensible to outsiders, such as animal welfare organisations or state veterinary authorities and must be eliminated by listing the absence of whiskers in the table of Disqualifying and General Faults or by deleting it from the FIFe Breeding & Registration Rules.

CH	FFH	Proposal 2	Breeding & Registration Rules	§ 6.14
Maine Coon bicolour with blue eyes				

MCO with blue eyes are only allowed in combination with EMS code w, 01 **and** 02 ~~and 03~~.

Motivation

Imported MCO from non-FIFe organisations are often designated as 03, although the white content is much lower and therefore only corresponds to code 09. Various non-FIFe organisations use the code 03, regardless of the white content. It must be ensured that no MCO with a low white percentage, which have the blue-eyedness due to the gene of the Alta cats and their health impairment, are registered.

	<h1>1. Deutscher Edelkatzen Züchterverband</h1>	(DE) DEKZV
---	---	---------------

DE	1.DEKZV e.V	Proposal 1	Breeding & Registration Rules	§ 6.20
RUS bluepoint				

The FIFe shall not recognise any variety other than blue *and blue pointed* in the Russian Blue.
The FIFe will not encourage any person or federation to produce colours other than blue *and blue pointed* in the Russian Blue.

When breeding Russian Blues:

- only blue *and blue pointed* shorthair progeny from blue *or blue pointed* parents can be registered as Russian Blue (RUS) *respective RUS a 33.*
- shorthair progeny in a variety other than blue *or blue pointed* must be registered as XSH * <RUS>
- longhair progeny: sister breed Nebelung - NEB non (→ § 8.4)

Motivation

In the litters of the Russian Blue breeders, always appear pointed cats. The blue pointed variety is genetically a blue cat in combination with the partial albinism gene. It is not a contradiction if the FIFe offers breeders the opportunity to bring this variety to recognition.

	<h1>LUX-CAT-CLUB Fédération Féline Luxembourgeoise</h1>	(LU) LCC-FFL
---	---	-----------------

LU	LCC-FFL	Proposal 2	Breeding & Registration Rules	§ 2.2.1
Accommodation – General conditions				

Correction of text in our rules, concerning the translation to unify the 3 languages:

~~Cats must have adequate space in which to move and play and should enjoy domestic living.~~
Cats must have adequate space in which to move and play and should enjoy domestic living conditions with human beings.

ADDITION:

The living accommodation of the cats must have a window with accessible view for the cats.

Remarks

- 1) In the 3 FIFe languages, in our rules, there were other and different definitions. Here we have given the 3 languages a correct and uniform translation.
- 2) Concerning the Addition, we repeatedly hear about cats who live in dark cellars or dark attics below the roof with a small roof hatch. We must make clear definitions of the accommodation conditions, in our rules.

LU	LCC-FFL	Proposal 3	Breeding & Registration Rules	§ 3.2 + 3.3
Minimum age for Studs / Queens				

ADDITION to article 3.2 Studs:

Before being used as a stud, the male must be 10 month old.

ADDITION to article 3.3 Queens:

Queens must be at least 12 months old to be presented to a stud male for mating. An exception, for possible mating from 10 months, suggested by a veterinarian with the motive, can be requested.

Remarks

There is nothing more important than the health and welfare of our cats. It cannot be the case that cats of 5, 6 or 7 months are used for breeding and then receive FIFe pedigrees. We have to put a minimum age in our rules.

	<h2>Mundikat</h2>	(NL) Mundikat
---	-------------------	------------------

NL	Mundikat	Proposal 2	Breeding & Registration Rules	§ 6.8
JBS – Removal restriction of silver				

Silver, shaded, shell, golden, ticked tabby and pointed (i.e. EMS-codes ~~s~~, y, 11, 12, 25, 31, 32 and 33) are not permitted in the Japanese Bobtail Shorthair (JBS) and must be registered as XSH * <JBS>.

Remark

If this proposal is carried, FIFe Breed Standard JBS (coat colour) must also be changed.

Motivation

The Japanese Bobtail is a very small breed in FIFe with a very small gene pool. Almost all imported cats from the USA have silver in the background and the silver restriction prevents FIFe members to be able to register the cats and allow new bloodlines to be introduced in the breed. Silver is permitted in most other cat organizations (e.g. CFA and TICA) and this makes it even more complicated for the breeders.

	<h2>Federatia Asociatiilor Feline “Felis Romania”</h2>	(RO) FAF-FR
---	--	----------------

RO	FAF-FR	Proposal 1	Breeding & Registration Rules	§ 5.2.3
Application for a cattery name				

Individual members of a FIFe organization:

- shall request to register a cattery name in the Book of Cattery Names through their national FIFe Member
- **shall attend as an exhibitor at least one time at a FIFe Show, prior requesting to register a cattery name**

- are allowed only one FIFe registered cattery name.

[...]

Motivation

The FIFe Shows are the major cat fancy events for all cat lovers and should be considered as the most important way to promote values and principles supported by the Federation. By participating as an exhibitor at a FIFe Show, a person will have the opportunity to discover and start to find out about our Federation’s show rules and titles, EMS codes, handling cats, meet with other exhibitors and breeders. Attending a FIFe Show as exhibitor could stimulate the interest of these beginners and awake their motivation to become active part of this exciting cat world.

	<h2>Breeding & Registration Commission</h2>	BRC
---	---	-----

FIFe	BRC	Proposal 1	Breeding & Registration Rules	§ 5.1.1
General principles - change age limit from 10 months to 1 year				

Once registered, the EMS code of a cat can be amended upon request of the cat’s breeder or owner until the age of ~~10 months~~ **1 year**.

Otherwise such changes may only be made if the amendment has been proven by:

- the genetics of the cat's parents
- its progeny
- a genetic test

or after having been shown in class 13c (Determination class)

or having received a transfer recommendation in accordance with Show Rules § 6.5.

[rest of article remains unchanged]

Motivation

As the age of kittens and juniors was changed last year, the BRC finds it natural to adjust the age limit in this paragraph accordingly.

FIFe	BRC	Proposal 2	Breeding & Registration Rules	§ 5.1.2.1 / 6.1.3
Removing special codes for registration – the use of brackets and their meaning				

§ 5.1.2.1 The use of brackets and their meaning

The meaning of the different types of brackets used in EMS codes to indicate differences in breeding status:

Bracket type	Breeding and registration restrictions
(XXX)	Target breed – Can be used for breeding, can be re-registered (→ § 9.1)
[XXX]	Breeding program – Can be used for breeding, cannot be re-registered
<XXX>	Originating breed – Cannot be used for breeding, cannot be re-registered

XXX means EMS code for the relevant breed

Target breed: (XXX)

An indication of the final goal of a breeding program. All cats in the breeding program must be identified by this to show which breed is the final goal – the target breed.

Cats with this indication can be shown in the Control class (class 13b) to establish if the standard of the target breed has been reached (→ § 9.1).

This type of brackets is also used for Novice cats which can be shown in the Novice class (class 13a) in order to obtain re-registration (→ § 9.2).

Breeding program: [XXX]

Indication for cats which can take part in a breeding programme but cannot be re-registered and cannot be shown in the Control class (class 13b).

Originating breed: <XXX>

Indication for cats belonging to a non-standard variety, which is prohibited in the standard of a breed, but born out of two purebred cats – i.e. both parents must be of the same breed. These cats cannot be used for breeding, cannot be re-registered and cannot be shown in the Control class (class 13b).

§ 6.1.3 Special restrictions and registration rules for some breeds

Cats with the indication “<EMS-code of originating breed>” cannot be used for breeding *without the permission from the FIFe Member*.

[rest of article remains unchanged]

Motivation

Adding this article 5.1.2.1 and removing the FIFe members possibility to give permission for breeding in article 6.1.3 have made a problems for breeders and FIFe members, not solving it as it was intended. BRC want to delete the entire article 5.1.2.1 and give the FIFe member possibility again to help their breeders.

FIFe	BRC	Proposal 3	Breeding & Registration Rules	§ 5.1.2.2 / 6.3
Charcoal: EMS code 14 (pattern) instead of t (modifier)				

5.1.2.2 Breed specific modifiers

The EMS code “t” will be used for breed specific modifiers.

The modifier code must be added to the EMS code for colour.

Recognised modifiers:

~~BEN agouti/non-agouti modifiers~~ — Charcoal (non-recognised variety)

NFO – black modifier Amber

For NFO the EMS codes “dt” and “et” may be used to register the genotype of red/cream progeny from two amber / amber carrying cats together with their phenotype “d” respectively “e” in brackets, in accordance with § 5.1.1. The EMS codes “dt” and “et” may only be used for registration purposes.

Registration examples:

~~BEN x nt 24~~ — Bengal black charcoal spotted (non-recognised variety)

NFO at 22 Norwegian Forest Cat light amber blotched

6.3 BEN (Bengal)

Novice cats are not permitted.

Any crossing with other breeds is prohibited, except with sister breed Bengal Longhair (BGL non).

Bengals of generations F1-F4 are not allowed for breeding

Charcoal varieties must be registered as ~~BEN x *t~~, **BEN x *14** i.e. as a non-recognised variety in the RIEX register. Charcoal Bengal can be used in breeding programmes for BEN/BGL non.

Motivation

Charcoal in Bengal is a pattern, not a modifier, and is therefore replaced by 14 as an overlaying, dominant pattern. Charcoal is a pattern originated in Asian Leopard cats and can only be registered in BEN/BGL non. If the proposal carries, the standard and EMS-list must be updated accordingly.

Judges & Standards Commission

JSC

FIFe	JSC	Proposal 4	Breeding & Registration Rules	§ 10.2.3/5, 11.2.3/5
Breed lectures on General Assembly Judges Seminar for new breeds/varieties				

§ 10.2.3 – Step 3 – Propose the preliminary recognition of the new breed

Change the last paragraph.

~~The JSC is to give a short presentation of the breed (preferably with cats present) at the General Assembly.~~
The JSC is to organise a lecture on the breed on the judges' seminar following the General Assembly, with cats of the breed present.

As a consequence:

§ 10.2.5 – Step 5 – Propose the full recognition of the new breed

Delete the last paragraph.

~~The JSC is to organise a lecture on the breed on the judges' seminar following the General Assembly, with cats of the breed present.~~

§ 11.2.3 – Step 3 – Propose the preliminary recognition of the new variety

Add a last paragraph.

The JSC is to organise a lecture on the variety on the judges' seminar following the General Assembly, with cats of the variety being present.

As a consequence:

§ 11.2.5 – Step 5 – Propose the full recognition of the new variety

Delete the last paragraph.

~~The JSC is to organise a lecture on the variety on the judges' seminar following the General Assembly, with cats of the variety being present.~~

Motivation

The JSC considers it more important to provide detailed information on the breed/variety under recognition to the Judges after the preliminary recognition started, not at the final recognition. This could help judges get more self-confident with such breeds/varieties and allow them to assess them more correctly during the preliminary timeframe.

Proposals regarding the Breed Council Rules

No proposals submitted

Proposals regarding the Rules for Judges & Student Judges

 <p>SuomenKissaliitto</p>	<h3>Suomen Kissaliitto r.y.</h3>	<p>(FI) Suomen Kissaliitto</p>
--	----------------------------------	--

FI	SK	Proposal 1	Rules for Judges & Student Judges	§ 1.5
Showing cats when officiating as a Judge or a Student Judge				

A Judge or Student Judge may only exhibit their own cats “Out of Competition” at the show where they are officiating.

On a 1-certificate FIFe show, divided in categories **for during** 2 or more days, it is not allowed to officiate as a Judge on the one day and exhibit on the other day.

On a 1-certificate FIFe show, divided in categories for 2 or more days, it is allowed to officiate as a Student Judge on the one day and exhibit on the other day.

Members of an officiating Student Judge’s household may exhibit their own cat(s) at the show, but not in a category or categories in which the Student Judge is officiating at the show.

Exhibits belonging to members of an officiating Judge’s household cannot compete in such a show.

Motivation

It is important to support the education of student judges, but also to enable them to function as exhibitors. In our opinion, it very much benefits their studies if the student judges can be active at shows also as exhibitors. At shows divided by categories for two or more days, we should allow the student judges to exhibit on the day, when not officiating as a student judge.

	<h3>Judges & Standards Commission</h3>	<p>JSC</p>
---	--	------------

FIFe	JSC	Proposal 5	Rules for Judges & Student Judges	§ 2.1.15
Study of all breeds				

Certain groups of colours/patterns must have been examined (solid, bicolour, tabby, silver/golden, pointed).

The JSC will organize online breed lectures on “rare breeds.” These lectures will not contribute to the number of cats seen by the Student but will allow him to apply for the judges’ examination without asking for exceptions. Breed lectures can be requested to the JSC by the Members or by the Board when at least 3 applications have been received.

Breed lectures will be listed in the official FIFe calendar at least one month prior to its date. A Certificate of Attendance will be issued by email within two weeks after a breed lecture to each Judge and Student Judge who remained in attendance for the whole online session.

The list of “rare breeds” is maintained and updated by the FIFe Board on recommendation from the Judges & Standard Commission. Currently the following breeds are listed: JBS, LPL/LPS, MAN/CYM and SOK.

The FIFe Board may grant exceptions to this rule when a candidate applies for his final examination in accordance with the geographic situation of that candidate. However, such exception(s) must be fulfilled during the stage(s) as a Probational Judge.

Motivation

The JSC would like to give Students the chance to apply for the final exam even if one of the rare breeds has not been examined. Breeds can be “rare” depending on different factors, and therefore the list of these breeds may be updated based on the numbers published by the BRC on the FIFe website. At present, the JSC consider as rare breeds the following: JBS, LPL/LPS, MAN/CYM and SOK. For this list of breeds, online lectures will be arranged.

FIFe	JSC	Proposal 6	Rules for Judges & Student Judges	§ 2.2.1 b)
Compulsory Training Seminars for Student Judges online				

Change the following sentence:

.....

~~The Seminar will be arranged as needed in different parts of Europe and will take place at week ends. The minimum duration must be one day.~~

The Seminar will be arranged as online seminar, with a minimum duration of 2 days

Motivation

The last two Compulsory Seminars (2020, 2023) have been conducted online and have been very successful in terms of number of participants and appreciation. The technicalities available make this upgrade very easy and smooth and all participants would appreciate the costs reduced to “zero”. FIFe would also benefit, from the economic point of view, as the only costs would be the lecturers’ fees.

FIFe	JSC	Proposal 7	Rules for Judges & Student Judges	§ 2.3.3, 2.3.5, 4.2.1
Language of final Judges Exam: only English				

The JSC proposes to have the Final Judge’s Exam only in **English**.

Remark

If the proposal is accepted, all references to the Exam languages must be updated.

Motivation

Of the 42 FIFe Members, less than 20% have French or German as their first FIFe language. Of the over 320 show weekends in the 2023 FIFe Show calendar, approx. 40 (12%) were in countries that have F/G as their first FIFe language. The FIFe JSC concludes from these figures that a FIFe Judge requires a command of the English language to be useful at the vast majority of FIFe shows. Of the 221 final exams sat since 2015, 203 (92%) were in English, 2 (1%) were in French and 16 (7%) were in German. The FIFe JSC spends many hours each year updating Final Exam Questionnaires that are never used.

FIFe	JSC	Proposal 8	Rules for Judges & Student Judges	§ 2.4.4
Examination in further categories				

A Judge intending to sit an exam his second category must meet the following requirements:

-
- he must have judged a minimum of 4 times after his appointment date as an International Judge in the category for which he qualified (**min. 50 cats**).

Motivation

According to the JSC it is not enough to have less than 50 cats judged, to fulfil the requirement. In some cases (depending on categories/countries), it is also possible to collect 15/20 cats in 4 shows and the JSC consider this not to be enough judging experience before taking a further category.

	Board	
---	--------------	--

FIFe	Board	Proposal 3	Rules for Judges & Student Judges	§ 3.12
Deletion of Dormant Judges				(new article)

Dormant Judges who have not requested reactivation (→ § 3.11) within a time frame of 5 years, shall be deleted from the Judges List.

Motivation

We consider that Dormant Judges who did not apply for reactivation within a time frame of 5 years, do not wish to be reactivated and not be part of the judge corps anymore. We propose to no longer include such judges in our Judges List.

Proposals regarding the Show Rules

	<h1 style="margin: 0;">Felis Belgica</h1>	(BE) FBE
---	---	-------------

BE	FBE	Proposal 2	Show Rules	§ 8.2
Open Doors – deletion of sentence				

8.2 Open Doors

2. Exhibitors belonging to any non-FIFe organisation may enter cats at FIFe shows under the following conditions:
 - a. all non-FIFe exhibitors must agree to respect all FIFe Rules and Standards
 - b. ~~they may only enter their cats in classes 12, 11 and 9 or 10; if they wish to enter cats in higher classes, they should become individual members of a FIFe Member~~
 - c. all applications from non-FIFe exhibitors should be sent in accordance with the instructions of the organisers
 - d. all entry fees from non-FIFe exhibitors should be paid in accordance with the instructions of the organisers.

Motivation

As FIFe, we state to conduct an open doors policy, but at this point, the open doors policy only contains limitations... During the 2022 and 2023 GA, we all expressed that change is needed. We must acknowledge we live in a world where there is not only FIFe and some members of other organisations just want to show their cats in FIFe, but not become full member. That is their right.

The limitation of not showing in higher classes makes no sense... Why don't we allow as many cats as possible at our shows? Let non-FIFe members experience that FIFe shows are the best, that FIFe judges are the best and that they should probably step over to FIFe... But if they do not want to step over, they are still welcome and their cats are still loved. Let the best cat win and go home with the certificate...

Let us conduct a real open doors policy!

	<h1 style="margin: 0;">Federation of Felinology Bulgaria</h1> <p style="margin: 0;">Mentor FAF-Felis Romania (RO)</p>	(BG) FBBg
---	---	--------------

BG	FBBg	Proposal 1	Show Rules	§ 2.6.6
Move Bulgaria from Mediterranean Winner group to Black Sea Winner group				

In line with art.§ 2.6.6 we request to delete FIFe probational member Bulgaria from Mediterranean Winner Show list and to add the FIFe probational member in Bulgaria to Black Sea Winner Show organizers list.

Mediterranean Winner Show	Bulgaria , Croatia, France, Greece, Italy, Portugal, Slovenia, Spain
Black Sea Winner Show	Bulgaria , Moldova, Romania, Ukraine

Motivation

We request those changes, as a return to the natural order of things, as Bulgaria is one of the countries with exit at the Black Sea having no direct connection with Mediterranean Sea. We would like to specify, even if it not mandatory, the fact that we have requested the prior consent of the members belonging to BSW, Romania, Ukraine and Moldova.

	<h1>Federação Felina Brasileira</h1>	(BR) FFB
---	--------------------------------------	-------------

FFB	Proposal 1	Show Rules	§ 4.3, § 4.4, § 4.5
Changes of the requirements for achieving International Titles			

Obtaining the title International Champion or International Premior

Provided the exhibit has obtained at least the minimum number of required points (6.9):

- CACIB is awarded in the Champion class (class 7)
- CAPIB is awarded in the Premior class (class 8).

In order to obtain the title **International Champion or Premior**, a cat must have been awarded:

- 3 (three) CACIB respectively CAPIB
- by 3 (three) different judges
- in at least 2 different countries **OR at least one show must be 300km away from the other ones**
- during 3 (three) international FIFe shows.

~~A maximum of 2 (two) CACIB respectively CAPIB could be obtained in the same country.~~

~~Exceptions are made for individual members residing in countries outlined in Annexes 2, 3 and 4.~~

Exception is made for individual members residing in a location where there is just one place where shows are organized up to 400km from him. These members can achieve all titles on the shows organized by the clubs near him.

Obtaining the title Grand International Champion or Grand International Premior

Provided the exhibit has obtained at least the minimum number of required points (6.9):

- CAGCIB is awarded in the International Champion class (class 5)
- CAGPIB is awarded in the International Premior class (class 6).

In order to obtain the title **Grand International Champion or Premior**, a cat must have been awarded:

- ~~a.~~ - 6 (six) CAGCIB respectively CAGPIB
- by at least 3 (three) different judges
 - in at least 3 different countries **OR at least two shows must be 300km away from the other ones**
 - during 6 (six) international FIFe shows.

A maximum of 4 (four) CAGCIB respectively CAGPIB could be obtained in the same country

Exception is made for individual members residing in a location where there is just one place where shows are organized up to 400km from him. These members can achieve all titles on the shows organized by the clubs near him.

~~OR if the requirements of §4.4 are not achieved after the cat has obtained 6 (six) CAGCIB / CAGPIB:~~

~~b. 8 (eight) CAGCIB respectively CAGPIB~~

- ~~• by at least 4 (four) different judges~~
- ~~• in at least 2 (two) different countries~~
- ~~• during 8 (eight) international FIFe shows.~~

~~A maximum of 7 (seven) CAGCIB resp. CAGPIB could be obtained in the same country.~~

~~Exceptions are made for individual members residing in countries as outlined in Annexes 3 and 4.~~

Obtaining the title Supreme Champion or Supreme Premior

Provided the exhibit has obtained at least the minimum number of required points (6.9):

- CACS is awarded in the Grand International Champion class (class 3)
- CAPS is awarded in the Grand International Premior class (class 4).

In order to obtain the title **Supreme Champion or Supreme Premior**, a cat must have been awarded:

- ~~a.~~ - 9 (nine) CACS respectively CAPS
- by at least 3 (three) different judges
 - in at least 3 different countries **OR at least two shows must be 300km away from the other ones**
 - during 9 (nine) international FIFe shows.

~~A maximum of 7 (seven) CACS respectively CAPS could be obtained in the same country.~~

Exception is made for individual members residing in a location where there is just one place where shows are organized up to 400km from him. These members can achieve all titles on the shows organized by the clubs near him.

~~OR if the requirements of §4.5.a are not fulfilled after the cat has obtained 9 (nine) CACS / CAPS:~~

~~b.~~

- ~~• 11 (eleven) CACS respectively CAPS~~
- ~~• by at least 6 (six) different judges~~

- in at least 2 (two) different countries
- during 11 (eleven) international FIFe shows.

A maximum of 10 (ten) CACS respectively CAPS could be obtained in the same country.
 Exceptions are made for individual members residing in countries as outlined in Annexes 3 and 4.

Motivation

Nowadays we have many exceptions for the rules concerning obtaining International titles due to multiple reasons. We all have heard that FIFe is losing members and shows are getting smaller. Individual members are not going to shows, but we have refused multiple proposals aiming to attract and bring back breeders and exhibitors to shows. Our proposal tries to make it as equal as possible to breeders to achieve our already existing titles since for some countries the breeders nowadays has just to drive 100Km and they can attend to shows in other countries (valid for international titles) but in other countries a breeder will not find it possible even if they moved 1.000Km or even worst they would have to deal with political or health barriers on the borders. This rule will support our exhibitors and breeders in current economically challenging times, but it would also send a message of a more sustainable and most importantly, a cat friendly hobby. We believe this rule can be suitable to all our members and no exceptions would be needed anymore.

  	Felinolog / China Cat Union / Felis Russica	(BY/CN/RU) Felinolog / CCU / FRU
---	--	---

BY / CN / RU	Felinolog / CCU / FRU	Joint proposal	Show Rules	§ 2.6.6 / § 4.1.1
Eurasian Winner Show				(new)

Show Rules article 2.6.6 Winner Shows Addition to the table of Winner Shows:

Name of show	Organising FIFe Member countries
<i>Eurasian Winner Show</i>	<i>Belarus, China, Russia</i>

Show Rules article 4.1.1 Show titles Addition to the table of Winner titles:

Winner titles	
<i>Eurasian Winner</i>	<i>EAW</i>

Motivation

We believe that addition of this Winner Show will help us to become more attractive to breeders in our countries and the authority of FIFe in general. Exhibitors from our countries are already present at International Shows in neighbouring regions. The introduction of the new title will increase the prestige of the exhibition movement and attract new clubs and catteries to FIFe.

<i>Asia Pacific Winner</i>	<i>APW</i>

	1. Deutscher Edelkatzen Züchterverband	(DE) DEKZV
---	---	-----------------------

DE 1.DEKZV e.V. Proposal 2 Show Rules	§ 8.2
Open Doors	

1. Permit non-FIFe members to participate as exhibitors at FIFe shows and permit individual FIFe members to exhibit at non-FIFe shows.
2. Exhibitors belonging to any non-FIFe organisation may enter cats at FIFe shows under the following conditions:
 - a. all non-FIFe exhibitors must agree to respect all FIFe Rules and Standards
 - ~~b. they may only enter their cats in classes 12, 11 and 9 or 10; if they wish to enter cats in higher classes, they should become individual members of a FIFe Member~~
 - b. non-FIFe exhibitors can enter their cats in all classes. The titles achieved may only be registered with one FIFe member. The exhibitor's legal registration address specifies which FIFe member does the registration.**
 - c. all applications from non-FIFe exhibitors should be sent in accordance with the instructions of the organisers
 - d. all entry fees from non-FIFe exhibitors should be paid in accordance with the instructions of the organisers.
3. FIFe certificates may only be obtained at FIFe shows and are the only certificates valid to obtain a FIFe title.

Motivation

The original intention of point b. aimed to attract members from NON-FIFe to encourage organizations to become members of a FIFe club in order to proceed further on and be able to exhibit in higher classes and to win FIFe titles. The past has shown that this goal has not been achieved. On the contrary, the number of members in independent associations has increased - at least in some parts of Europe - as has the number of independent clubs themselves. It is becoming increasingly difficult for the organizers to reach the number of 150 cats per show. Germany in particular has been suffering massively for several years from the presence of around 80 competing independent clubs

	Landsforeningen Felis Danica	(DK) FD
---	-------------------------------------	--------------------

DK FD Proposal 1 Show Rules	§ 1.17.c
Configuration of show cages	

- *In case of ring configuration of the cages, metal cages must have curtains safe and fully covering 2-sides of the cage, to protect the cat from other cats.*
- *In case of back-to-back configuration, metal cages must have curtains fully covering at least 3 sides of the cage, to protect the cat from other cats.*
- *Food, water, and a litterbox must be available to the cat at least 50% of the duration of the show day.*
- *The bottom of the cage must be covered for the cat's comfort.*
- *Provide the cat with the possibility of undisturbed rest for instance in the form of tent, shelter, or an extra curtain.*

Motivation

Authorities are more and more aware of how we take care of cats. Shows are important for PR.

DK FD Proposal 2 Show Rules	§ 3.3.1
Showing kittens and juniors consecutive weekends	

§ 3.3 Minimum age - **3.3.1.**

The minimum age of a cat must be at least 4 months during the show.

This rule applies to International and National Shows, Seminars and Breed and Propaganda Shows.

ADDITION 3.3.2.

Exhibitors must always mind not over-showing a cat to the extent that it will affect the cat's health in a negative way.

Kittens and Juniors shown in classes 11, 12 and 14 can only be shown during 2 consecutive weekends and must then have a break during the following weekend.

Motivation

We have seen quite a lot of instances of cats being showed extensively, with the result that the cats became terminally ill. We understand the attraction of showing a successful cat as much as possible, but believe it's important – also given the general political climate – that we mandate giving the cat a scheduled break from shows.

DK	FD	Proposal 3	Show Rules	§ 6.5
Class changes only after acceptance by the show secretariat				

A judge cannot transfer an exhibit from one variety, group or breed to another variety, group or breed unless an administrative error is established by the show secretariat.

The class may only be changed after the agreement of the show secretariat.

Motivation

This proposal will adjust the rules to the actual praxis. Errors regarding the class happens all the time and changing class is a different thing altogether from changing variety, group or breed. This will enable more flexible management of the show.

 Suomen Kissanliitto	<h2 style="color: #8B0000;">Suomen Kissanliitto r.y.</h2>	(FI) Suomen Kissanliitto
--	---	--------------------------------

FI	SK	Proposal 2	Show Rules	§ 1.1
Deletion				

1.1 General conditions and restrictions

- ~~a. No shows may be held during the weekend immediately following the General Assembly.~~
- b. The most recent version of the FIFe show calendar is published on the FIFe website.
- c. Any appeal against a show can be made to the shows up to two years in advance.
- d. Shows can be held on any day of the week.

Motivation

FIFe is a worldwide organization, with more than 200 judges, and organises year-round activities in more than 40 member countries and their member federations in Europe, Asia and South America. It is no longer necessary to reserve a weekend free from shows because of the FIFe General Assembly, which takes place on Thursday and Friday. This rule is outdated, and we should allow our members to have shows also on the weekend following the General Assembly.

FI	SK	Proposal 3	Show Rules	Annex 2
Exception of titles IC/IP				

Permit all certificates to be granted in one country for the title:

- International Champion/Premior: 5 CACIB/CAPIB by at least 3 different judges.

This exception is only valid for Belarus, **Finland**, Italy, Norway, Portugal, Russia, Spain and Ukraine until 31.12.2026

Motivation

Finland is geographically isolated and as a large country, the distances for our exhibitors are extremely long even inside our country. As we have now faced financially challenging times, we wish to support our exhibitors to continue their hobby and our clubs to have exhibitors coming to their shows.

	<h2 style="margin: 0;">Fédération Féline Française</h2>	(FR) FFF
---	---	-------------

FR FFF	Proposal 1 Show Rules	Annex 2
Exception for titles IC/IP		

Permit all certificates to be granted in one country for the title:

- International Champion/Premior: 5 CACIB/CAPIB by at least 3 different judges.

This exception is only valid for Belarus, **France**, Italy, Norway, Portugal, Russia, Spain and Ukraine until 31.12.2026.

Motivation

This request for a period of 2 years is due to problems linked to the current economic crisis.

Exhibitors residing in the west of France must travel more than 900 km to reach the Belgian or Spanish borders. This exemption was granted to other neighbouring countries and we would like it for France as well.

	<h2 style="margin: 0;">Magyar Macskások Egyesülete Felis Hungarica</h2>	(HU) FH
---	---	------------

HU FH	Proposal 1 Show Rules	§ 2.3 d
World Show - no qualification for kittens (class 12)		

Class 12 (kittens)

~~1x Excellent 1 in class 12~~ **No qualification needed**

Motivation

It often happens that a kitten turns 4 months old just a few days before the date of the World- or Winner Show, so due to the minimum age rule, the World- or Winner Show is the first show in which it can participate. Currently only cats in class 12, which are at least 4 months and one week old can participate in the World- or Winner Shows. Since these cats do not have the opportunity to participate in any shows prior to the World- or Winner Shows they have no chance at all to obtain the necessary qualification. Therefore, we recommend that cats starting in class 12 do not have to qualify to enter the World- or Winner Shows.

	<h2 style="margin: 0;">Indonesian Cat Association / Kelab Kucing Malaysia</h2>	(ID/MY) ICA / KKM
---	--	-------------------------

ID / MY	ICA / KKM	Joint proposal Show Rules	Annex
Exception for titles KCH / JCH			(new)

We propose the following for the Show Rules in classes 11 & 12 valid for Indonesia & Malaysia as from 01.06.2024.

Permit all certificates to be granted in one country for the title:

Kitten Champion: 3 CACC by at least 2 different judges (only for Indonesia and Malaysia)

Junior Champion: 3 CACJ by at least 2 different judges (only for Indonesia and Malaysia).

Motivation

To make it viable to organize international shows in Indonesia and Malaysia, ICA and KKM decided to organize most of these shows during 2 consecutive weekends by inviting the same 2 judges to officiate, with the judges agreeing to stay in Indonesia or Malaysia during the period in between.

This causes a problem for cats, which are starting in classes 11 or starting in classes 12. They entered for both show days during these 2 weekends: it is impossible for them to obtain 3x CACC or 3x CACJ by 3 different judges and there is no possibility for countersigning.

ICA and KKM hopes our proposal will be carried, many thanks in advance, also on behalf of our exhibitors who will be very happy they can continue showing their cats instead of being blocked to do so.

	<p style="text-align: center;">Associazione Nazionale Felina Italiana</p>	<p style="text-align: center;">(IT) ANFI</p>
---	--	--

IT	ANFI	Proposal 1	Show Rules	§ 5.4
Change of ages in classes 9/10 and 11/12				

Class 9: Open class

This class is open to cats which are aged at least ~~42~~ **10** months during the show, in consideration of § 1.17.e and § 3.1. In this class a CAC is awarded.

Class 10: Neuter class

This class is open to castrated cats which are aged at least ~~42~~ **10** months during the show, in consideration of § 1.17.e and § 3.1. In this class a CAP is awarded.

Class 11: Junior (~~8-12~~ **7-10 months) class**

This class is open to cats which are aged ~~8~~ **7** months during the show, but not yet ~~42~~ **10** months old, in consideration of § 1.17.e and § 3.1.

Class 12: Kitten (~~4-8~~ **4-7 months) class**

This class is open to cats which are aged 4 months during the show, but not yet ~~8~~ **7** months old, in consideration of § 1.17.e and § 3.1.

Motivation

In these few months of application of the new rule it has emerged that, although it is true that for breeds with slow development, two months can be important to enter the open class, it is equally true that for large breeds it is exactly the opposite. The disparity in size and physical development between puppies of just 4 months with those of almost 8 is important, and the difference is even more important in class 11 where puppies of just 8 months are compared with subjects of almost 12, practically already adults. For this reason, considering the evidence found in the exhibition, we ask to return to the previous ages in classes 9/10 and 11/12. The qualifications acquired as per art. remain unchanged. 4.1.1 and 4.1.2 of Show Rules

	<p style="text-align: center;">Lithuanian Felinology Association "Bubaste"</p>	<p style="text-align: center;">(LT) LFA- Bubaste</p>
---	---	--

LT	LFA-Bubaste	Proposal 1	Show Rules	Annex 2
Exception for titles IC/IP				

Permit all certificates to be granted in one country for the title:

- International Champion/Premior: 5 CACIB/CAPIB by at least 3 different judges.

This exception is for Belarus, Italy, **Lithuania**, Norway, Portugal, Russia, Spain and Ukraine until 31.12.2026

Motivation

Exhibitions are important for the promotion of Felinology in Lithuania. It is important that show visitors see high-quality cats of different breeds. Shows are important for cat welfare education. Lithuania is a small country and organizes small exhibitions. Bubaste members want to participate in exhibitions in Lithuania because it is their hobby. However, they have no intention of going to foreign countries. Exemption from the requirement for a certificate in 2 countries in class 7/8 can increase the number of Bubaste show exhibitors and our members who remain in the cat hobby

	<h2 style="color: #8B0000;">Kelab Kucing Malaysia</h2>	<p>(MY) KKM</p>
---	--	---------------------

MY	KKM	Proposal 1	Show Rules	§ 5.4
Change in class 13c				

We propose the following exception to the Show Rules Class 13c Determination Class *-can be done by 2 different judges on separate shows.*

Motivation: Mostly KKM can only afford to organize most of the shows with only 1 judge due to our geography and economy. With our currency being weak against the Euro, the cost of bringing 2 judges or more for every show is financially impossible. With this proposal, we can ensure that cats can be checked and registered with the right colour/variety after 2 separate shows. This will help ease the club's burden and help our individual members.

MY	KKM	Proposal 2	Show Rules	Annex 4B
Exception for titles CH/PR/IC/IP				

We propose the following exceptions to the SR in classes 7 – 10 valid for Malaysia as from 01.06.2024:

- *3x CAC/CAP in 1 country, awarded by with at least 2 different judges*
- *3x CACIB/CAPIB in 1 country, awarded by at least 2 different judges.*

Motivation: Due to geographical, political policies and financial reasons, it is not easy for our individual members to show outside of our own country. Premise to that, there is a possibility that the club has to invite the same judge after a year. With that, members who earned a CAC from Judge A in 2024 might earn another CAC from Judge A again in 2025. This is more evident for female adult cats when they take a rest from maternity and they come back a year later and be judged by the same judge.

	<h2 style="color: #8B0000;">Nederlandse Vereniging van Fokkers & Liefhebbers van Katten "Felikat"</h2>	<p>(NL) FE</p>
---	--	--------------------

NL	Felikat	Proposal 3	Show Rules	§ 2.3 d
World Show – no qualification needed for kittens (class 12)				

Class 12 (kittens): ~~1x Excellent 1 in class 12~~ *No qualifications needed, kittens are automatically qualified*

Motivation

The timeframe to qualify for the World Show and Winner Shows for the youngest kittens in class 12 is too short and limited. Furthermore, we believe that the existing qualifications for classes 7 – 11 should remain. This will keep on benefiting the number of entries for other shows, since these cats will be entered and compete there in order to obtain the qualifications they need.

	<h2 style="color: #8B0000;">Norske Rasekattklubbers Riksforbund</h2>	<p>(NO) NRR</p>
---	--	---------------------

NO	NRR	Proposal 2	Show Rules	§ 1.18
Responsibilities of the exhibitor				
				(new)

a. *In the show cage, the cat shall have access to water, food and litter tray throughout most of the exhibition day.*

Motivation

There is increasing focus on the welfare of the cat. However, the FIFe Show Rules contains no article, which refers directly to the welfare of the cat in a show situation.

NO	NRR	Proposal 3	Show Rules	Annex 2
Exception for titles GIC/GIP				

Annex 2 – Number of certificates, countries and judges for the titles IC/IP and GIC/GIP

Permit all certificates to be granted in one country for the title:

- International Champion/Premior: 5 CACIB/CAPIB by at least 3 different judges.
This exception is valid for Belarus, Italy, Norway, Portugal, Russia, Spain and Ukraine.
- **Grand International Champion/Premior: 10 CAGCIB/CAGPIB by at least 5 different judges.**
This exception is valid for Norway.

These exceptions are valid until 31.12.2026.

Motivation

Exhibitions are an important recruitment field for the cat fancy. After previously granted exemptions, NRR has noticed an increased interest among new exhibitors in recent years, especially since they can participate in several exhibitions in the country and must not travel abroad. Norway is a long country, and for those who live in the north and west it is a long way to travel abroad. This creates a high threshold for new exhibitors to have to travel abroad after several exhibitions in the adult class, and some new exhibitors then give up exhibiting. We already see that the exception to the requirement for certificates in 2 countries in class 7/8 has increased the number of new exhibitors who stay in the cat fancy.

	Polska Federacja Felinologiczna "Felis Polonia"	(PL) FPL
---	--	-------------

PL	FPL	Proposal 1	Show Rules	§ 2.6.6
Inclusion in Central European Winner group				

Central European Winner Show	Austria, Czech Republic, Hungary, Poland , Slovakia
------------------------------	--

Motivation

Poland is one of the biggest FIFe members in Europe, not belonging to any winner show organizers list yet. We believe that such addition will strengthen Central European Winner Show group

PL	FPL	Proposal 2	Show Rules	§ 4.9.1
Nominations for males and females in classes 11 and 12				

Each judge may nominate one exhibit in each category (→ page 36) he is judging as:

- adult male
- adult female
- adult neuter male
- adult neuter female
- junior **male** (~~not divided by sex~~)
- **junior female**
- kitten **male** (~~not divided by sex~~)
- **kitten female**

Motivation

Will be presented at the GA.

PL	FPL	Proposal 3	Show Rules	Annex 2
Exception for titles IC/IP				

Permit all certificates to be granted in one country for the title:

- International Champion/Premior: 5 CACIB/CAPIB by at least three different judges.

This exception is for Belarus, Italy, Norway, **Poland**, Portugal, Russia, Spain and Ukraine until 31.12.2026.

Motivation

Exhibitors from Poland due to the geographic location and political situation have reduced numbers of shows located abroad (war in Ukraine, requirement of visa and far distance in Belarus & Russia, no shows in the eastern part of Germany). This exception would increase number of cats at the shows in Poland (not blocked by the third certificate) and allows to continue achieving the higher titles GIC/GIP & SC/SP with the foreign shows according to the rules.

	Federatia Asociatiilor Feline “Felis Romania”	(RO) FAF-FR
---	--	------------------------

RO	FAF-FR	Proposal 2	Show Rules	§ 4.3
Obtaining the title International Champion or International Premior				

Provided the exhibit has obtained at least the minimum number of required points (→ § 6.9):

- CACIB is awarded in the Champion class (class 7)
- CAPIB is awarded in the Premior class (class 8).

In order to obtain the title International Champion or International Premior, a cat must have been awarded:

- **4 (four)** CACIB respectively CAPIB
- by 3 (three) different judges
- ~~in at least 2 (two) different countries~~
- during **4 (four)** international FIFe shows.

~~A maximum of 2 (two) CACIB respectively CAPIB could be obtained in the same country. Exceptions are made for individual members residing in countries outlined in Annexes 2, 3 and 4.~~

Remark

If this proposal is carried, the exceptions for individual members in Annexes 2,3,4 are to be deleted.

Motivation

There are more and more Members, who ask every year for exceptions regarding classes 7 and 8 at the GA. We would like to suggest making the rule uniform to fit all Members and then to delete unneeded exceptions. With proposed modification, the exhibitors could decide what is the best option for them to achieve the title, to show inland or abroad, depending on their geographical reality and economical possibilities. The number of 4 CACIB/CAPIB fits in the frame of gradually increasing number of certificates when continuing in higher classes: **3 for CH/PR, 4 for IC/IP, 6 for GIC/GIP and 9 for SC/SP.**

RO	FAF-FR	Proposal 3	Show Rules	§ 4.19
New title: International Winner				(new)

FIFe Members may award the title International Winner (IW) annually according to their own criteria which must be published in advance of the relevant year.

The following conditions must be met:

1. FIFe Members may award a maximum of 15 cats the IW title in any single calendar year; cats may only obtain one IW title in any single calendar year.
2. Such cats must have competed in the show classes 1 - 12 or 14 at shows during the relevant year; FIFe Members may decide a minimum number of shows.
3. FIFe Members may only base the competition for IW titles on the results of shows organised by FIFe Members outside their countries.
4. FIFe Members may only award the IW title to cats of fully recognized breeds registered in their own Pedigree Book (as well as house cats), which belong to their own individual members.
5. The winning cats will have their IW title, also mentioning the year, registered in the same way as other official FIFe titles (→ § 4.1.1).
6. The names of the International Winner cats must be published.

Motivation

The main driver for breeders to participate in FIFe Shows is the competition they will be taking part in and at the end of which they will get a gratification as a result of this participation, no matter if it is a judge report, a certificate, a best in variety, a nomination, or a best in show title. For this reason, we consider that the addition of a possible new title awarded following a criterion related to the participation in shows outside their country, can be a new incentive in the competitive activity of a breeder and can also contribute to increase the number of international participants in the shows we organize.

	<h1 style="margin: 0;">Sveriges Kattklubbers Riksförbund</h1>	<p>(SE) SVERAK</p>
---	---	------------------------

SE SVERAK Proposal 1	Show Rules	§ 3.7
Cages		

3.7 ~~Locking of cages~~ **Cages**

- a) It is prohibited – under penalty of exclusion from competition – to lock the cages with padlocks and/or to let cats change cages before judging is finished.
- b) *The place where the cat spends most of the show day, i. e. the show cage, must be furnished so that the cat has somewhere to seek shelter and the opportunity to do its needs in a natural way. The cat must, in the same cage, for most of the day have access to drinking water.*

Motivation

To clarify for exhibitors regardless of country or association affiliation how the space the cat stays in during a FIFe-arranged show must be adapted. As we are a federation that protects the cat's health and status this should be reflected in the way we keep our cats at shows. The competitions, both at local and international level, is today a big outward face and this is where the common person comes in contact with us as a federation. There is today nothing in FIFe's regulations that guides exhibitors when it comes to what amenities a cat is expected to have access to and we feel this needs clarification.

SE SVERAK Proposal 2	Show Rules	§ 4.3
Obtaining the title International Champion or International Premior		

Provided the exhibit has obtained at least the minimum number of required points (→ § 6.9):

- CACIB is awarded in the Champion class (class 7)
- CAPIB is awarded in the Premior class (class 8).

In order to obtain the title International Champion or International Premior, a cat must have been awarded:

- a.
 - 3 (three) CACIB respectively CAPIB
 - by 3 (three) different judges
 - in at least 2 (two) different countries
 - during 3 (three) international FIFe shows.

A maximum of 2 (two) CACIB respectively CAPIB could be obtained in the same country.

Or if the terms in 4.3.a. are not met when the cat has received 3 (three) CACIB respective CAPIB

- b.
 - *5 (five) CACIB respectively CAPIB*
 - *by 3 (three) different judges*
 - *in at least 2 (two) different countries*
 - *during 3 (three) international FIFe shows.*

Exceptions are made for individual members residing in countries outlined in Annexes ~~2, 3 and 4~~.

Motivation

We see an increased number of cats at our show in the classes 7/8. We also see that travel and hotel costs have increased for our members, so we see an opportunity to achieve the titles in the home country as a better option than that they stop showing their cat because it is too expensive to travel far.

SE SVERAK Proposal 3	Show Rules	Annex 2
Exception for titles IC/IP		

Permit all certificates to be granted in one country for the title:

- International Champion/Premior: 5 CACIB/CAPIB by at least three different judges.

This exception is for Belarus, Italy, Norway, Portugal, Russia, Spain, **Sweden** and Ukraine until 31.12.2026.

Motivation

During the time with exception of the rules in classes 7/8 we saw that more cats were shown to obtain the titles IC/IP since they did not need to go abroad. In this way their interest in the cat fancy increases and they may want to continue in higher classes. Everything is getting more expensive, and many cannot afford to go abroad. With the continued economic situation and concern about infections we see exhibitors stop showing their cats when they need to travel abroad. Sweden is a long country and those living up north having both long distances and a climate that makes long distance travelling to neighbour countries hard. The world situation is another reason for worry and we also want to protect the environment. We hope that an exemption from the requirement of certificates from more than one country in classes 7/8 will lead them to stay in our hobby and that the conditions look better after 2026.

	Show Commission	SC
---	-----------------	----

FIFe	SC, Board, JSC, DC, PRC, HWC	Proposal 1	Show Rules	§ 1, § 1.1, § 1.2, § 1.2.1, § 1.2.2 (new)
General, Cat Shows, Code of Ethic for Exhibitors, Principles being the Exhibitor at FIFe Shows, Code of Ethic and responsibility of a FIFe Member				

1. General

1.1 Cat Shows

Cat shows are one of the most important promotion events and the presentation of the cat fancy. Besides web sites and social media, cat shows are the most important tools of cat fancy to educate the public about cats of domestic origin, pedigreed or not, and to promote the welfare and a good life for all cats. Information about the cat fancy brought to the community through newspapers, radio, television and social media will normally take place in connection with local cat shows. A cat show is the arena where many potential cat fanciers become active after having been a visitor. Cat shows are also the place where the exhibitors from different international Members meet, where they compete with their cats and where they have the possibility to exchange experiences with each other.

1.2 Code of Ethics for Exhibitors

1.2.1 Principles being the Exhibitor at FIFe Shows

Exhibitors are, besides the cats themselves and the FIFe Judges, one of most important promoters of the cat fancy and have great responsibilities toward the values and principles promoted by the Federation.

Exhibitors, whether only exhibitors or also breeders, are usually the first contact and their behaviour and attitude are among the first impressions people outside the cat fancy experience.

They are expected to:

- show knowledge about cats and breeds, about the welfare of cats, about how to take proper care of them and their needs, and the understanding of a cat's behaviour
- show knowledge about FIFe and understanding of the basic values and principles identifying the organisation,
- be able to communicate with other exhibitors and other people (e.g. visitors, judges, show organizers) always in a respectful manner, showing tolerance towards each other, despite possible differences, different opinions and different cultural and educational backgrounds; always maintain self-control, support each other in our common interests and goals, and never engage in transgressive behaviour (e.g. harassing, bullying or threatening etc.),
- demonstrate a welcoming atmosphere in the show hall and on social media to influence the public's positive opinion and attitude towards cats, encourage others to become interested in cat fancy and to join us in common goals for the welfare of cats.

1.2.2 Code of Ethics and responsibility of a FIFe Member

Exhibitors and Breeders are representatives of FIFe and the FIFe Member they belong to and shall conduct themselves as such.

They shall always display a considerate and caring attitude and courteous behaviour whether verbal, written and/or as demonstrated by physical actions.

Whether exhibiting or visiting a show, they shall not cause disruption during or after the show. Social media is considered an extension of the physical public space and respectful behaviour is expected there as well.

Exhibitors and Breeders are the responsibility of the Member to which they belong.

The Member is responsible to act against such Exhibitors and Breeders who do not respect this code of ethics, whether such behaviour is officially lodged in a complaint. or only reported or noticed. This applies to any inappropriate behaviour in connection with cat shows, as well as on social media.

Remark

If this proposal is carried, renumber articles under existing 1 The organisation of national and international shows to 1.3 The organisation of national and international shows and all sub articles to 1.3.1 [...]

Motivation

After events, which took place at the last World Show, it was felt the FIFe needed to implement a Code of Ethics for Exhibitors within the existing Show Rules to clearly identify what is expected and acceptable behaviour at FIFe shows not only for Judges and Student Judges, but also for other participants, especially exhibitors.

FIFe	SC	Proposal 2	Show Rules	§ 1.8
Conditions for an international show – min. 120 cats				

A show called “International” must satisfy the following conditions:
[...]

- e. At least ~~150~~ 120 cats, [...]
- f. [...] with less than ~~150~~ 120 cats up to a minimum number of 100 cats. [...]

Motivation

Still today, lots of show organizers struggle with achieving the minimum numbers of cats entered and are forced to ask permissions to the Board. To reduce the number of obligatory entered cats will help show organizers and will decrease the stress and time spend on this issue before and after the show, not only for organizers, but also for the board.

FIFe	SC	Proposal 3	Show Rules	§ 1.10
The organiser’s responsibility				

Delete from article:

- f. make judging cages (near the judge's table in the judge's ring) available. ~~for a minimum number of 4 cats.~~

Motivation

To update an outdated rule and to give organizers the flexibility to adjust to the circumstances, without violating the show rules.

FIFe	SC	Proposal 4	Show Rules	§ 1.15
Cats appearing in the catalogue				

Delete from article:

All entries in the catalogue are liable for payment of the entry fee even in case of absence.
If the exhibitor is unable to attend due to unforeseen circumstances before closing date (~~date of postmarked letter is decisive~~), he is obliged to inform the organisers in writing.

Motivation

To update an outdated rule.

FIFe	SC	Proposal 5	Show Rules	§ 2.3
Qualifications for the World Show				

Delete the whole article 2.3 Qualifications for the World Show

Remark: If this proposal is carried, article 2.6.4 must be also deleted.

Motivation

The current economic situation and the cost of organizing a World or Winner Shows prevails above any other reasons.

FIFe	SC	Proposal 6	Show Rules	§ 2.7
Specific rules for World Show and Winner Shows				

Add a new sentence after the article title and reorganize the article by paragraphs:

- a. **The World Show and Winners Shows cannot be combined with any other type of show.**
- b. During the World Show...
- c. FIFe Members...
- d. Certificates ...

Motivation

After recent extended interpretations of possibilities regarding organizing shows, when combining Winner Show with an extra extended one day International Show in addition to the weekend of the Winner Show, we need to bring this rule to avoid any similar extended interpretations of Show Rules in the future.

FIFe	SC	Proposal 7	Show Rules	§ 2.7
Specific rules for World Show and Winner Shows				

Reorganize the article by paragraphs and add new 5th paragraph:

[...]

- d. Certificates ...
- e. **BEST IN VARIETY – BIV: In case of a larger number of adult competitors (at least 5 males and 5 females) Best in Variety will be chosen separately by sex.**

Motivation

To give more opportunities at this kind of shows to males and females in varieties with larger number of cats.

FIFe	SC	Proposal 8	Show Rules	§ 4.9.1
Nominations for Best in Show (NOM)				

Each judge may nominate one exhibit in each category (→ page 36) he is judging as:

[...]

- junior 8-12 months **male** ~~(not divided by sex)~~
- **junior 8-12 months female**
- kitten 4-8 months **male** ~~(not divided by sex)~~
- **kitten 4-8 months female**.

Remark

If this proposal is carried, as a consequence, § 4.9.2, 3rd and 4th paragraph must be adjusted with same text as stated in 1st and 2nd paragraph of the same article: ..., or by another junior of the opposite sex in the same variety and ..., or by another kitten of the opposite sex in the same variety

Motivation

After the change of the age in classes 12 and 11 to give more equal opportunities for nominations to juniors and kittens of different sexes, compared now in longer age frame and therefore more extended differences in development, who compete now all together regardless the sex, compared to when adult or adult neuters. But at the end, chosen from all nominated kittens and juniors, it will still be only one BIS winner in class 12 and only one BIS winner in class 11. We aimed to give more equal and just possibilities and to motivate increase of entries.

Other Proposals

	<p>Fédération Féline Française</p>	<p>(FR) FFF</p>
--	---	---------------------

FR	FFF	Proposal 2	Other proposals
Global software			

FIFe currently has 41 members in 39 countries and each of them uses its own software for managing its exhibition data.

Since all these computer programs are different and not interconnected it would make sense to set up a joint system for all member countries in order to standardize the software internationally and enhance communication between member countries.

The software creation could be financed by a one-off payment to FIFe from about EUR 500 to EUR 1000 per member. This amount (from about EUR 21000 to EUR 42000) would enable FIFe to have the necessary program set up professionally.

A single system would facilitate not only the registration of titles obtained with certificates from abroad but also the approval of registrations to exhibitions abroad.

All documents would be standardised worldwide and a server with a database of all FIFe-registered cats would be available to all members.

Each member would pay a lump sum and could possibly divide the cost over its individual clubs.

Some countries already have good programs. One of these could be upgraded to become the global program used and financed by all requesting members

	<p>Board</p>	
---	---------------------	--

FIFe	Board	Proposal 4	Other Proposals
Resignation of FIFe as a member of the WCC			

The Board suggests ending the membership of FIFe in the World Cat Congress (WCC).

Motivation

In the years of WCC membership, FIFe Members have not had many benefits from the WCC membership.

Standard NEM – CORIN - Recognised colour varieties / Anerkannte Farbvarietäten / Variétés de couleurs reconnues

Remarks/ Anmerkungen/ Remarques	The NEVA MASQUERADE are judged in four colour groups, i.e. only one certificate can be awarded in each group.	Die NEVA MASQUERADE werden in vier Farbgruppen gerichtet, d.h. in jeder Gruppe kann nur ein Zertifikat vergeben werden.	Les NEVA MASQUERADE sont jugés en quatre groupes de couleur, c'est-à-dire seulement un certificat peut être attribué pour chaque groupe.
	<i>CORIN (also known as sunshine, extreme sunshine and bimetallic) is only recognised for black and blue within the existing colour varieties of the Neva Masquerade.</i>	<i>CORIN (auch bekannt als sunshine, extreme sunshine und Blau innerhalb der existierenden Farbvarietäten der Neva Masquerade anerkannt.</i>	<i>CORIN (aussi connu sous le nom sunshine, extreme sunshine et bimetallic) reconnues uniquement en noir et bleu parmi les couleurs déjà existantes pour le Neva Masquerade.</i>

Eye colour/ Augenfarbe/ Couleur des yeux	A	Deep blue	Dunkelblau	Bleu foncé
	B	Copper or deep orange	Kupferfarben oder dunkelorange	Cuivre ou orange foncé
	C	Odd eyed: one eye deep blue, the other one copper, deep orange or (yellowish) green	Odd eyed: ein Auge dunkelblau, das andere kupferfarben, dunkelorange oder (gelblich) grün	Impairs: un œil bleu foncé, l'autre cuivre, orange foncé ou vert(-jaunâtre)
	D	Green or blue green, green is preferred; outlined with the colour of the tipping/pattern	Grün oder blaugrün, grün bevorzugt; mit der Farbe des Tippings/Musters umrandet	Vert ou bleu-vert, vert de préférence; cerclés de la couleur du tipping/des marques
	E	Green or yellowish green; preferably green	Grün oder gelblich grün; grün bevorzugt	Vert ou vert-jaunâtre; vert de préférence
	F	Intense, deep Siamese blue	Intensives tiefes Siamblau	Bleu Siamois, intense et profond
Coat colour/ Fellfarbe/ Couleur de la fourrure	G	The <u>tipping/pattern</u> of the hairs is <u>dark</u>	Das <u>Tipping/die Zeichnung</u> der Haare ist <u>dunkel</u>	Le <u>tipping/dessin</u> est <u>foncé</u>
	H	In tipped cats, no distinction is made between shaded and shell cats: always apply EMS code 11 The back, flanks, head, ears and tail should be evenly tipped with the genetic color. Uniform tipping is more important than the tipping length on each hair. The legs may show tipping diminishing towards the feet. They must be free of tabby markings.	Bei getippten Katzen wird kein Unterschied zwischen shaded and shell gemacht: verwende immer EMS Code 11. Rücken, Flanken, Kopf, Ohren und Schwanz sollen gleichmäßig in der genetischen Farbe getipped sein. Gleichförmiges Tipping ist wichtiger als die Tippinglänge auf jedem Haar. Die Beine dürfen zu den Pfoten hin ein abschwächendes Tipping zeigen. Die Beine müssen frei von Tabby-Zeichnung sein	Chez les chats tipped aucune distinction n'est faite entre shaded ou shell: toujours appliquer le code EMS 11. Le dos, les flancs, la tête, les oreilles et la queue doivent être également tipped avec la couleur génétique. Uniforme tipping est plus importante que la longueur de tipping sur chaque cheveu. Les membres peuvent montrer tipping diminuant vers les pattes. Ils doivent être exemptes de marques tabby.

--	---	---	--

B	<p><u>Points:</u> – ears, mask and tail – to be well defined. The mask to have an inverted white "V" as symmetric as possible, which includes the nose leather. Chin is white.</p> <p>Body colour is to be a shade lighter than the points; with or without white spots on the back. A white patch on genitals is allowed.</p> <p>Belly white and without spots. Preference is given to white legs. The ideal is completely white feet and legs, the body colour must not extend down and cover more than one third of the legs.</p> <p>A small spot on legs/feet is tolerated.</p> <p>Paw pads: pink</p>	<p><u>Points:</u> – Ohren, Maske und Schwanz – sollen gut abgegrenzt sein. Die Maske muss ein umgekehrtes weißes "V" aufweisen, so symmetrisch als möglich, einschließlich des Nasenleder. Das Kinn ist weiß.</p> <p>Körperfarbe: etwas heller als die Points; mit oder ohne weiße Flecken am Rücken. Ein weißer Punkt auf Genitalien ist erlaubt.</p> <p>Bauch weiß und ohne Flecken. Weißer Beine werden bevorzugt. Ideal sind komplett weiße Beine und Pfoten, die Körperfarbe darf nicht nach unten reichen und mehr als ein Drittel der Beine bedecken.</p> <p>Ein kleiner Fleck an den Beinen/Pfoten wird toleriert Fußballen: rosa</p>	<p><u>Points:</u> – oreilles, masque et queue – doivent être bien marqués. Le masque doit présenter un "V" blanc inversé aussi symétrique que possible, incluant la truffe. Le menton est blanc.</p> <p>Couleur du corps: d'une nuance un peu plus claire que celle des points, avec ou sans taches blanches sur le dos. Une portion de blanc sur les parties génitales est autorisée.</p> <p>Le ventre est blanc, sans tache. Des membres blancs sont préférés. L'idéal sont des pieds et des membres complètement blancs, la couleur du corps ne doit pas s'étendre vers le bas et couvrir plus d'un tiers des membres. Une petite tache sur un membre/pied est tolérée.</p> <p>Coussinets : rose</p>
C	<p>Points well defined and in harmony with the body colour, as in the Colourpoint. White chin, with or without a white narrow stripe/markings on the bridge of the nose up to the forehead. Narrow white stripe/markings is allowed on the muzzle as long as it follows the median line down into the chin.</p>	<p>Points gut abgegrenzt und mit der Körperfarbe harmonisierend, wie bei den Colourpoint. Weißes Kinn, mit oder ohne einem schmalen weißen Streifen/Zeichnung auf dem Nasenrücken hinauf bis zur Stirn. Ein schmaler weißer Streifen/Zeichnung auf der Schnauze ist erlaubt, solange er entlang der Medianlinie herunter zum Kinn liegt.</p>	<p>Les points bien définis et en harmonie avec la couleur du corps, comme pour les Colourpoint. Menton blanc, avec ou sans une étroite raie/marque blanche sur le dessus du nez jusqu'au front. Une étroite raie/marque blanche est permise sur le museau tant qu'elle suit la ligne médiane jusqu'au menton.</p>

<p>White stripe extends from the bib and runs down the underside between the front legs to the base of the tail. A white patch on genitals is allowed.</p> <p>White mittens on the front feet, legs-maximum up to metacarpals. Lower mittens allowed as long as every toe is white. No dark spot on the white front mittens</p> <p>Hind legs white, minimum up to the heel and maximum to the middle of the thigh Coloured small spot(s) in this area is are acceptable.</p> <p><u>Nose leather</u>: analogous to the colour of the points or pink <u>Paw pads</u>: pink and/or analogous to the colour of the points</p>	<p>Ein weißer Streifen, beginnend am Lätzchen, zieht sich nach unten zwischen den Vorderbeinen bis zum Schwanzansatz durch. Ein weißer Punkt auf den Genitalien ist erlaubt.</p> <p>Weiße Handschuhe an den Vorderpfoten; maximal bis zu den Mittelhandknochen. Mehr Farbanteil ist erlaubt, sofern jeder Zeh weiß ist. Kein Fleck auf den vorderen Fäustlingen.</p> <p>Die Hinterbeine sollen mindestens bis zur Ferse und maximal bis zur Mitte des Oberschenkels weiß sein. Farbige Flecken sind in diesem Bereich zulässig. Ein farbiger kleiner Fleck in diesem Bereich ist zulässig.</p> <p><u>Nasenspiegel</u>: entsprechend der Farbe der Points oder rosa <u>Fußballen</u>: rosa und/oder analog zur Farbe der Punkte oder rosa</p>	<p>Une bande blanche part de la collerette, passe par le ventre, entre les membres antérieurs et se termine sous la base de la queue. Une portion de blanc sur les parties génitales est autorisée.</p> <p>Des mitaines blanches sur les membres pieds antérieurs maximum jusqu'au métacarpe. Des mitaines minimales sont autorisées pour autant que tous les doigts soient blancs. Pas de tache foncée sur les mitaines des membres antérieurs.</p> <p>Les membres postérieurs doivent être blancs au minimum jusqu'au talon et au maximum jusqu'au milieu de la cuisse. Des taches Une petite tache colorées dans cette zone sont est acceptables dans ce domaine.</p> <p><u>Truffe</u> : analogue à la couleur des points ou rose <u>Coussinets</u> : rose et/ou analogue à la couleur des points ou rose</p>

EARS / OHREN / OREILLES	Wide at the base and open, curving back in a smooth arc when viewed from the front and the rear. <i>There shall not be an abrupt change of direction of the curl, nor pinch, horizontal, or vertical crimp. The interior surface shall not appear corrugated.</i>	Weit am Ansatz und offen, in sanftem Bogen nach hinten gebogen, wenn man sie von vorne und von hinten betrachtet. <i>Es darf weder zu einer abrupten Richtungsänderung des Curls, noch zu einer Quetschung oder einem horizontalen oder vertikalen Knick kommen. Die Innenfläche darf nicht gewellt erscheinen.</i>	Larges à la base et ouvertes, vu de face ou de l'arrière courbées vers l'arrière en un arc doux. <i>Il ne doit pas y avoir de changement brusque de direction, sans courbe douce, ni de pincement, plis horizontaux ou verticaux. La surface intérieure ne doit pas paraissant ridée.</i>
Shape/ Form/ Forme	Tips are rounded and flexible. Furnishings are desirable.	Spitzen gerundet und biegsam. Behaarung wünschenswert.	Bouts arrondis et flexibles. La présence de poils à l'intérieur des oreilles est souhaitable.

FIFe	JSC / BC MCO RSK / RK MCO CJS / CdR MCO	Proposal / Antrag / Proposition 3.3	Standards	MCO
Standard MCO				

General/ Allgemein/ Généralités	<i>Origin/ Herkunft/ Origine</i>	The Maine Coon is a natural breed of amiable character that traces its origin to the working cat found on the farms of Northeast America.	Die Maine Coon ist eine natürliche Rasse mit liebenswürdigem Charakter, die ihren Ursprung in den "working cats" der Farmen von Nordost-Amerika hat.	Le Maine Coon est une race naturelle, au caractère agréable. Les fermiers d'Amérique du Nord Est les ont utilisés pour leurs capacités de chasseur.
	Appearance/ Gesamtein- druck/ Apparence	The breed of the Maine Coon is large framed with a square outline of the head, large ears, broad chest, solid bone structure, a long, hard muscled, rectangular body and a long flowing tail. Good muscle tone and density give the cat the appearance of power and robustness. <i>The Maine Coon should always be in good balance and proportion with no feature of the cat being exaggerated.</i>	Die Rasse d er Maine Coon ist großformatig, mit kantigem Kopfumriss und großen Ohren, breitem Brustkorb, starkem Knochenbau, einem langen hart bemuskelten rechteckigen Körper und einem langen wehenden Schwanz. Gute Muskelspannung und Festigkeit geben der Katze einen Ausdruck von Kraft und Robustheit. <i>Die Maine Coon sollte immer in guter Balance und Proportion sein ohne dass ein Merkmal der Katze übertrieben wird.</i>	Le Maine Coon est un grand chat aux contours de tête anguleux avec de grandes oreilles. La poitrine est large. L'ossature est solide, le corps est long et rectangulaire, très musclé, la queue est longue et flottante. La fermeté et la densité des muscles donnent à ce chat une apparence de puissance et de robustesse. <i>Le Maine Coon doit toujours être en bon équilibre et en bonne proportion sans qu'aucune caractéristique du chat ne soit exagérée.</i>

Head/ Kopf/ Tête	Shape/ Form/ Forme	Medium in size to the body ; square d outline. Upper part of the head broader than the muzzle. Enough height to create a profile with a gentle concave slope. Mature males may have larger and broader heads than females	Mittelgroß für den Körper ; kantiger Kopfumriss. Der obere Teil des Kopfes ist breiter als die Schnauze. Ausreichend hoch, um ein Profil mit einer sanften konkaven Neigung zu erstellen. Vollentwickelte Kater können größere und breitere Köpfe als Kätzinnen haben.	De taille moyenne par rapport au corps , au contour carré. La partie supérieure de la tête est plus large que le museau. Hauteur suffisante pour créer un profil avec une légère courbe concave. Les mâles adultes doivent avoir la tête plus grande et large que les femelles.
	Chin/ Kinn/ Menton	Firm, broad and deep enough to complete the square outline of the muzzle. In vertical alignment with nose and upper lip.	Fest, breit und tief genug, um den quadratischen Umriss der Schnauze zu vervollständigen. In senkrechter Linie mit Nase und Oberlippe.	Ferme, suffisamment large et profond pour compléter le contour carré du museau. Forme une ligne verticale avec le nez et la lèvre supérieure.
Ears/ Ohren/ Oreilles	Shape/ Form/ Forme	Large, wide at the base, straight outlines and moderately pointed. In adults not higher than 1 and half time the width of the base. Lynx-tufts are desirable. Tufts of hair in the ears extend beyond outer edges of ears.	Groß, breit am Ansatz, gerade Umrisse und mäßig spitz zulaufend. Bei Erwachsenen nicht höher als das Anderthalbfache der Breite der Basis Luchs-Pinselchen sind erwünscht. Haarbüschel in den Ohren ragen über den äußeren Ohrenrand hinaus.	Grandes, larges à la base, aux contours droits et moyennement pointus. Chez les adultes, pas plus de 1 fois et demie la largeur de la base. Des plumets sont souhaités. Des touffes de poils intérieurs dépassent du bord extérieur des oreilles.
	Placement/ Platzierung/ Placement	Set fairly high on head with a n very slight outward tilt between eleven and one o'clock. Ears should be placed one ear's width apart. The width extends slightly in older cats. Lower base set just slightly further back than upper base.	Sitzen ziemlich hoch auf dem Kopf, mit einer Neigung nach außen zwischen 11 und 1 Uhr. Der Ohrenabstand sollte eine Ohrbreite sein. Der Abstand wird bei älteren Katzen etwas größer. Der untere Ansatz ist etwas weiter als der obere Ansatz nach hinten versetzt.	Attaché assez haut sur la tête avec une inclinaison vers l'extérieur entre onze heures et une heure. La distance entre les oreilles devrait être de la largeur d'une oreille. Cette distance s'agrandit quand les chats prennent de l'âge. La base inférieure de l'oreille est placée légèrement en arrière par rapport à la base supérieure.
Eyes/ Augen/ Yeux	Shape/ Form/ Forme	Oval , large and expressive. Appear round when wide open. Widely and not deep set. Slightly oval, but not almond shaped. Set slightly slanted towards the outer base of the ear.	Oval , Groß und ausdrucksstark. Erscheinen rund, wenn sie weit offen sind. Weit auseinanderstehend und nicht tief angesetzt. Leicht oval, aber nicht mandelförmig, erscheinen rund, wenn sie weit offen sind. Leicht schräg in Richtung äußerem Ohransatz gesetzt.	Ovales , grands et expressives. Paraissent ronds quand ils sont bien ouverts. Bien écartés et pas enfoncés. Légèrement ovales, mais pas en forme d'amande. Placés légèrement en oblique vers la base extérieure de l'oreille.

Coat/ Fell/ Fourrure	Structure/ Struktur/ Structure	All weather coat. Dense. Short on head, shoulders and legs, becoming gradually longer down the back and sides, with long, full shaggy baggy trousers on the hind legs and belly fur. A frill is expected. Texture silky. Coat has distinct body, falling smoothly. The undercoat is soft and fine, covered by the coarse firm smooth outercoat. Length of coat and density of undercoat vary with seasons.	Allwetterfell. Dicht. Kurz am Kopf, den Schultern und den Beinen, allmählich entlang des Rückens und an den Seiten nach hinten länger werdend, mit langen, vollen strähnigen Pluderhosen an den Hinterbeinen und langem strähnigem Fell am Bauch. Eine Halskrause wird erwartet. Textur seidig. Das Fell hat Stand, ist glatt fallend. Die Unterwolle ist weich und fein, von dem grobe , festen , glatten Deckhaar bedeckt. Die Länge des Fells und die Dichte der Unterwolle variieren mit den Jahreszeiten.	Fourrure adaptée à tous les temps. Dense. Courte sur la tête, les épaules et les membres, s'allonge sur le dos et les flancs. D'importantes culottes bien fournies longues, hirsutes et flottantes. Fourrure fournie sous le ventre. Collerette souhaitée. Texture soyeuse. Fourrure avec beaucoup de corps qui tombe avec souplesse. Sous poil doux et fin recouvert d'un poil de jarre ruide ferme et retombant. Longueur de fourrure et densité du sous-poil varient selon les saisons.
Condition		The Maine Coon should always be in good balance, condition and proportion.	Die Maine Coon sollte immer in guter Balance, Kondition und Proportion sein.	Bon équilibre des proportions et bonne condition indispensables.

Head/ Kopf/ Tête	general shape, shape of nose, cheeks and muzzle, jaw and teeth, forehead, chin	allgemeine Form, Form der Nase, Wangen und Schnauze, Kiefer und Gebiss, Stirn, Kinn	forme générale, forme du nez, joues et museau, mâchoires et denture, front, menton	25 20	40
